CERTIFICATE

STATE OF NEW YORK
DEPARTMENT OF FARMS AND MARKETS
BERNE A. PYRKE, Commissioner

Certificate of Inspection of Nursery Stock

This is to certify that the nursery stock of MA-LONEY BROS. NURSERY CO., INC., of DANSVILLE, County of LIVINGSTON, State of NEW YORK, was duly examined in compliance with the provisions of Article 14 of the Farms and Markets Law and was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose scale or other dangerously injurious insect pest or pests. This certificate expires September 1, 1927.

Dated, Albany, N. Y., Sept. 1, 1926.

BERNE A. PYRKE, Commissioner.

By GEO G. ATWOOD, Director Bureau of Plant Industry.

We Guarantee Our Stock

To be absolutely TRUE TO NAME.

To be positively free from disease.

To arrive at destination in a satisfactory condition. Should any arrive otherwise, we expect the consignee to notify us within five days after arrival and we will immediately duplicate the unsatisfactory items or refund your money.

MONTMORENCY

Maloney's
Big Reduction
in Prices
For
Spring 1927

MADE possible by using the latest and most up-to-date devices for propagation. This, together with growing large quantities of all kinds of fruit and ornamental trees, shrubs, roses, vines, etc. on our new farms which are particularly adapted to producing more and better trees to the acre, enables us to keep the cost of production down and this saving we are passing along to our patrons in our new low prices for Spring 1927. We have not been content to learn only by experience but have worked and studied on the theory of the nursery business. We have called upon agricultural and horticultural experimental stations to aid us in making tests. We have taken courses to improve our business methods. As a result, we not only know how to grow nursery stock but also how to grow it as economically as quality stock can be produced.

MALONEY TREES DUG BY STEAM POWER HAVE LONG, FIBROUS ROOTS.

Planting Instructions

Important— Read carefully

Care of Stock on Arrival—All stock should be planted immediately on arrival, but if not convenient to do so, open bundle and heel roots in the ground, covering them thoroughly. Wet the roots before covering.

Plant When the Soil is Reasonably Dry—In such condition as you would when planting corn or potatoes.

Pruning—For best results it is imperative that you trim about one-fifth of the root, making a nice smooth cut, thus removing all bruised ends. Cut back one-half of the limb growth.

Planting—Dig the holes deep enough so the trees will be set one inch deeper than they were in the nursery row, and wide enough to admit the roots of the trees to spread out in their natural position. Having dug the hole as directed, let one person hold the tree upright and the other shovel in the earth; fill the hole about one-fourth with the richest dirt, pack it solidly, then put in one pail of water, now fill the hole two-thirds with dirt, pack firmly, then fill up the balance of the hole and pack well.

Watering Newly-Planted Nursery Stock—A good soaking once or twice a week if the ground is dry should be resorted to. A mulch of long manure, grass clippings or straw helps to retain this moisture and should be provided if possible.

Labels—Labels should be removed. The wires will cut and damage the limbs.

Cultivation—Ten days after the tree has been planted work around it to keep the soil loose; do this about every two weeks during May, June, and July.

These planting directions apply to all kinds of nursery stock. When planting evergreens, however, prune the roots only.

Trimming Shrubbery—Newly planted shrubbery should be cut back severely; from one-third to one-half of the top should be removed. If the planting is done in the Fall it is usually best to defer this trimming until early the following Spring.

Shrubs that bloom before the middle of June should be trimmed just after the blooming period to ensure a profusion of bloom the following year. Shrubs which bloom later should be pruned in March.

Winter Protection—Leaves are valuable for mulching, especially for the perennial beds. They may be confined by branches or wire netting.

Surroundings Add to the Beauty of the Home

MOST every person is desirous of bringing to realization their dream of a home with beautiful surroundings.

When building a home it is only natural to study carefully every detail pertaining to convenience and substantial construction and yet when completed many are disappointed, particularly with the exterior appearance. They wonder what is lacking until they suddenly discover that it is not a home until it is planted. So often when passing places set with shrubs and ornamentals we comment on the attractiveness of it. Not necessarily a mansion nor an expensive dwelling but a cottage or a bungalow you find that a few shrubs, evergreens or ornamentals are responsible for the charming effect.

The same magic will work on the home built long ago, for when planted it will produce warmth, comfort, and a whole lot of real satisfaction.

A well recognized real estate concern states that a place nicely planted will enhance in value at least 25%. Therefore, to bring out the full beauty and value of a home and surroundings the grounds should be planted with shrubs, roses, ornamentals and fruit trees.

The shade of the maples, the attractiveness of the shrubs, the fragrance of the roses, and the dark covers under the evergreens are never forgotten by those who lived and played around them in childhood days. These are the things that bring happiness, healthfulness and complete the real genuine home satisfaction.

This is all yours for an investment of a few dollars. See pages 29 to 48. Plant this Spring at Maloney's new low prices and have this enjoyment next summer. *Happy Surroundings Tend to Convert Idle Moments into Years of Pleasant Memories.*

Maloney's Certified Trees

September 16, 1926

To Fruit Growers:

About 80,000 one and two-year old apple trees were certified during the summer of 1926 by this Association for Maloney Bros. Nurseries at Dansville, N. Y. This certification was in charge of Dr. J. K. Shaw of the Massachusetts Experiments Stations, our agent for certification.

This does not mean that other trees sold by Maloney Bros. Nurseries are misnamed, nor that the trees are guaranteed in any way by this Association. It does mean that each certified tree has been carefully examined and pronounced true to name by a disinterested expert and that the danger of accidental mixing of varieties has been practically eliminated.

A lead seal is attached to each certified tree bearing the name of the variety and our stamp of certification as being true to name.

Trees of the following varieties were certified in 1926 for Maloney Bros.

Apple:

Alexander
Baldwin
Black Gilliflower
Cortland
Delicious
Early Harvest
Fall Pippin
Fameuse
Gravenstein
Grimes Golden
Hubbardston
Hyslop
Jonathan

Twenty Ounce
Wagener
Wealthy
Williams
Winesap
Winter Banana
Wolf River
Yellow Transparent
Yellow Newtown
York Imperial

The Massachusetts Fruit Growers Association, Inc.
W. R. Cole, Amherst, Secretary

In accordance with our established policy, we have had 80,000 apple trees certified as being true to name by Dr. J. K. Shaw of the Massachusetts Agricultural College—Certificate Agent for the Massachusetts Fruit Growers Association, Inc.

The facsimile letter reproduced on this page tells the certification story and lists the varieties certified. All Maloney fruit trees are budded from bearing trees and are covered by the same rigid Maloney guarantee as are the certified trees.

Certification is an extra precaution taken for the benefit of customers who prefer it and who wish to pay a few cents additional per tree to cover the cost of the work—see prices listed on page 6.

6 per cent discount before April 15th. 3 per cent discount after April 15th.

Apples Trees should be planted on elevated ground rather than in a hollow or low ground, and they require fertile soil, such as is needed for corn and wheat.

Summer Varieties

EARLY HARVEST—Medium to large size; pale yellow; tender, with a mild, fine flavor. Tree an erect grower and a good bearer; excellent for orchard and garden; one of the first to ripen. Middle to end of Aug.

GOLDEN SWEET—Large, pale yellow, tree a good grower and very productive. August to September.

RED ASTRACHAN—Tree hardy and regular bearer, a very vigorous grower; fruit large, roundish, nearly covered with deep crimson overspread with a thick bloom; juicy, rich and beautiful. This fruit commands the best price of the summer varieties. July and August.

SWEET BOUGH—Large, pale yellow; sweet, tender and juicy. Tree a compact grower and abundant bearer. August.

WILLIAMS EARLY RED—Medium sized; dark red, sometimes yellow splashed; flesh is crisp, tender, juicy and sub-acid. Ranks above all but one or two of this class. Fine in Delaware and the South. Use it—it is a money maker where you can ship to markets in hampers without delay. It is ready for market just about the time people are growing hungry for new apples, and it brings top price. August.

YELLOW TRANSPARENT—Medium size, roundish, oblate, slightly conical; skin pale yellow when fully matured; flesh tender, juicy, sprightly, sub-acid; good. August.

DELICIOUS

Autumn Varieties

ALEXANDER—Of Russian origin. Large, deep red or crimson; flesh yellowish white, crisp, tender, with pleasant flavor. Tree very hardy. October.

AUTUMN STRAWBERRY—Medium, streaked, tender, juicy, fine, vigorous and productive. September to October.

DUCHESS OF OLDENBURG—Summer. Medium size; red striped; flesh white, juicy and excellent flavor. Trees are natural dwarf growers, make fine fillers; require small root and branch space. Crops nearly always large. One of the important varieties for all sections north of Mason and Dixon line. Thrives and yields well of high-grade fruit at all elevations in Pennsylvania, New York, Ohio and other northern states. Trees among the hardiest and one of the few that will stand the climate of Iowa, Minnesota, Montana, and other cold locations. You can depend on Duchess to yield apples you can sell for good prices. August and September.

FALL PIPPIN—Very large, yellow, tender, juicy, and rich. Fine in all localities; tree vigorous. September and October.

GRAVENSTEIN—An attractive and excellent quality apple. Fruit large and uniform in size, skin thin, tender, greenish yellow overlaid with dark red. September to November.

MAIDEN'S BLUSH—Large, flat; pale yellow with red cheek; beautiful; tender and pleasant. September and October.

POUND SWEET—A very large, round, yellow russet apple, very sweet and rich. Tree a vigorous, rapid, upright grower; valuable. October to November.

PUMPKIN SWEET—Very large; yellowish russet, sweet and rich. Valuable. October and November.

RAMBOO—Medium, red and yellow. Mild flavor. Excellent old variety. October to December.

Winter Varieties

AMERICAN BLUSH—Fruit, large, roundish, color bright red on yellow skin; flesh yellow with a fine, rich, aromatic flavor, sub-acid. Nov. to Jan.

BOIKEN—Annual bearer, vigorous grower. Fair size, hardy; bears young, very attractive and regarded as one of the most valuable apples of recent introductions. November to March.

BEN DAVIS—Fruit is medium to large. Bright red or red striped with clear yellow. Season—January to June. It succeeds wherever apples are grown.

BELLEFLOWER—Adapted to the northern and middle states; highly esteemed for its excellent dessert qualities. October to February.

BALDWIN—This is the leading commercial variety in the American markets. It is to apples what Elberta is to peaches, and Montmorency is to cherries. One of the best storage apples for export trade. Thousands of barrels of this fruit are exported to England annually. Baldwin is planted extensively and succeeds wonderfully well in all states east of the Mississippi. No variety yields larger crops, bears shipment better or is more attractive in colors, size and shape. It is highly esteemed for an eating and cooking apple. Fruit large, bright red, crisp, juicy and rich. Trees vigorous, upright and productive. For a commercial orchard, it can be relied upon. If ever in doubt what kind of apples to plant, select Baldwin. It should be in every orchard. December to March.

CANADA RED—Medium, oblate, red, tender, crisp, rich, sub-acid, refreshing and delicious. Tree thrifty, but a slender grower. Productive. January to May.

WINTER BANANA

CORTLAND—(New Variety Developed by New York State Experimental Station.) A fine apple resulting from the cross pollinization of McIntosh and Ben Davis. Inheriting only the good qualities of each, the new apple has found additional good qualities of its own which are rapidly making it a strong competitor of the Baldwin in popularity. The Cortland is a beautiful red apple, larger than the McIntosh, of better quality and matures a month later. Keeps late in Winter and can be handled and shipped like the hardiest of other market varieties. Has the calibre of a real leader.

CORTLAND

DELICIOUS—No new variety has ever so quickly gained popularity in so many different apple sections of our country. Fruit large, nearly covered with brilliant dark red, flesh fine grained, crisp and melting, juicy with a delightful aroma, of very highest quality. A splendid keeper and shipper. Tree one of the hardiest. November to April.

FAMEUSE—Snow Apple—Medium size; deep crimson; flesh snowy white, melting and delicious, one of the finest dessert fruits. October to December.

GANO—An improved Ben Davis, adding to the good qualities of that variety a much handsomer fruit of deep, dark red, that brings a ready sale in market. December to March.

GILLIFLOWER—(Black.) An old dessert apple; tree a good vigorous grower and a reliable cropper. October to February.

GRIMES' GOLDEN—Medium to large size; skin golden yellow, sprinkled with gray dots; flesh crisp, tender, juicy, sprightly, very good to best. Tree is very hardy and productive, and one of the best fillers, as it comes into bearing very early. December to April.

HUBBARDSTON NONESUCH—Large, striped yellow and red; flesh yellow, juicy and tender, with an agreeable flavor of acidity and sweetness; of the finest quality and very valuable; strong grower; bears well every year; comes into bearing early. You will find it a splendid orchard tree for New York and Pennsylvania. November to March.

JONATHAN—A beautiful red apple, highly flavored and of excellent quality, being tender, juicy, spicy, and rich—a splendid family sort and highly profitable for market. Tree long-lived, productive, and an early bearer. Will keep well without special care and also stand much handling. November to January.

McINTOSH

JACOB'S SWEET—Large, yellow with red cheek. Excellent quality and good keeper. December to January.

KING—(King of Tompkins Co.) When you see in the market apples of extraordinary size, beautiful red in color, specimens that attract the attention of everybody who passes by, you may know that these are the King apple. The market is never fully supplied with this variety, since its size and beauty make it in great demand. Tree a vigorous grower, good bearer and hardy. November to January.

MAMMOTH BLACK TWIG—Dark red. A very profitable variety to plant for market. It is productive and a long keeper. If a late winter apple is desired you will make no mistake in adding it to your list. December to April.

McINTOSH RED—An exceedingly valuable, hardy, attractive apple; good size; nearly covered with red. Flesh white, fine, very tender, juicy and refreshing. Tree hardy, vigorous, a good annual bearer—comes into fruiting early, yielding large crops. Mr. Maloney recommends this variety to our patrons as one of the best used as a filler. The hardness of both tree and fruit and its great early bearing qualities, coupled with its elegant color and splendid flavor, make it a most valuable apple. Do not overlook McIntosh when selecting varieties for commercial orchard planting; has no superior as an early winter apple. October to January.

NEWTOWN PIPPIN—Medium to large; yellow, delicious flavor, a long keeper. Known throughout Virginia as Albemarle Pippin. November to May.

NORTHWESTERN GREENING—A round, large, attractive, greenish yellow apple; flesh fine grained, juicy, firm, good quality. October to April.

NORTHERN SPY—A hardy, large, red, winter apple. Flesh juicy, rich, crisp, tender, aromatic, of good flavor. Tree very healthy, strong grower, rugged. Blossoms very late, escaping frosts. Its large size, handsome appearance and super-fine quality give it first rank for fancy trade, and when well grown and properly packed, it sells for higher prices than any other winter apple. It retains its crispness and high flavor well to the end of its season. December to March.

OPALESCENT—Fruit large; skin moderately thick, glossy, takes a brilliant polish, pale yellow nearly and frequently covered with dark deep red; flesh distinctly tinged with yellow, rather firm, somewhat coarse, mildly sub-acid. November to February.

BALDWIN

RHODE ISLAND GREENING—This apple has a recognized standing, both in domestic and foreign markets and sells readily for good prices. It is regarded as the very best cooking apple grown and also excellent for dessert use. Size large. Flesh yellowish, firm, fine grained, crisp, tender, juicy, slightly sub-acid, very good. Skin grass-green to yellow, sometimes with brownish-red blush. Tree large, strong, vigorous, wide spreading. Ripens in December, keeps until April.

ROME BEAUTY—Large, round; mottled and striped in different shades of red; flavor and quality way above the average; appearance and size are its valuable points; always sells and always brings good prices. With an established reputation due to real merit. Good grower; blooms late; bears heavily every year; is adapted to a wide range of soils, elevations and conditions. Reliability, due to being frost-proof, strong-growing and sure bearing, makes it a favorite with the grower. November to May.

ROXBURY RUSSET—Medium to large. Surface rough, greenish covered with russet. Tree free grower, spreading; a great bearer. Keeps until June. Its great popularity is its productiveness and long-keeping. December to May.

RED SPY—A solid bright red spy without stripes or splashes. It has been recommended to fruit growers by the N. Y. State Fruit Testing Cooperative Association at Geneva as a new variety worthy of trial. The apple is a typical Northern Spy in every respect except color. It is hardy, productive, reliable bearer. Trees are long-lived and bloom quite late in the season, often escaping frosts which ruin other varieties. December to March.

SMOKEHOUSE—Fruit medium to large, uniform size and shape. Color yellow or greenish mottled with rather dark red, sometimes deepening to a solid bright red. October to March.

SPITZENBURG—(Esopus.) Unequalled for its high rich flavor, color deep red; flesh yellow, crisp, rich and excellent. December to March.

STARK—Large, striped, mild, sub-acid, good. Valuable as a keeper. January to May.

STAYMAN'S WINESAP—Medium to large, attractive; green and yellow, almost hidden by dark red stripes; flesh yellow, not in the least mealy; plenty of juice; quality of the finest. Tree a quick and large grower, bears young, often producing a barrel to a tree when five years old. Bears every year, crops uniformly heavy. You cannot find a better sort, either for bearing habit, size of fruit, looks or quality. Do not hesitate to plant Stayman's Winesap. December to April.

SUTTON BEAUTY—Tree vigorous, upright, spreading, fruit uniform in size and shape, fine grained, crisp, tender, very good. Color bright red, striped with carmine. November to March.

TOLMAN SWEET—Medium size; light yellow; flesh white, firm, rich, and very sweet. Excellent for winter baking. This is the old favorite, highly prized for baking. Very productive, an early bearer, long keeper. December to April.

TWENTY OUNCE—Very large, yellow striped, red, fine quality apple; good keeper. Tree vigorous grower, productive. October to January.

WAGENER—(Red Winter Apple.) Wagener is a beautiful winter apple, flesh crisp, tender and aromatic. We know of no apple possessing greater beauty or of finer quality than the Wagener. It succeeds well East and West. No orchardist's list of varieties can be complete without this beautiful and superior flavored apple. Of medium to large size; flesh firm, sub-acid and fine quality. December to May.

WEALTHY—This is one of the best red early winter apples. Owing to its early bearing qualities it is planted largely as a filler. Its extreme hardness makes it a valuable variety for the eastern states and is considered to be one of the best all around early winter apples to grow. Fruit large, roundish; skin smooth, oily, covered with a dark red. Flesh white, tender, juicy, vinous, sub-acid; quality very good. This variety is particularly valuable for cold climates because the tree is very hardy. Wealthy is being planted largely for commercial purposes as a filler in many sections. October to January.

WINESAP—Large, roundish, oblong; deep red with a few streaks and a little yellow ground color appearing on the shady side; flesh yellow, firm, crisp, with a rich, high flavor; quality very good. December to May.

WINTER BANANA—Fruit large, perfect in form; golden yellow, and beautifully shaded and marbled with bright, crimson red; flesh lemon-yellow, fine grained, sub-acid, rich, aromatic flavor, and of the highest quality. A good keeper. Tree remarkably strong grower, and on account of its great hardness, will thrive in any climate. Its early bearing is something simply wonderful, generally producing a fine crop the second year. A valuable market variety. Very popular especially in New York and Pennsylvania. November to January.

WOLF RIVER—Fruit is very large, some specimens weighing 27 ounces; flattened, conical, highly colored. An excellent cooking apple. Sept. to Dec.

YORK IMPERIAL—A fine, hardy, large, red, winter apple; succeeds over a wide range of country. It comes into bearing at four years from planting, bears regularly and heavily. The fruit is of medium size, skin yellow and almost wholly covered with two shades of red, the darker one disposed in distinct stripes. Splendid variety for Pennsylvania. November to February.

Best Hardy Crab Apples

HYSLOP—Fruit large, deep crimson; produced in clusters; flesh yellow, sub-acid; and popular on account of its large size, beauty and hardness. Oct.

TRANSCENDENT—This is probably one of the best of all crab apples, is popular over the entire country. It is perfectly hardy everywhere and an immense bearer, yielding large crops every year. It is also a rapid grower and often bears fruit three years after planting. The fruit of this crab is held in great esteem by housewives for making jelly. Fruit bright yellow, striped with red. Sept. to Oct.

Glenville, N. Y. R. F. D. No. 7,
Nov. 3rd, 1926.

Gentlemen:—

I have received my order of Nursery stock in fine condition and am well pleased. The roots on your trees and vines are well developed. If I need more stock later on, you will surely get my order.

Very truly yours,
GEORGE E. GRAY

52 Terminal Way, S. S. Pittsburgh, Pa.
Nov. 8th, 1926.

Gentlemen:—

Permit me to advise that I have just received the nursery stock recently ordered from you and from appearance I believe it is equal in quality and development to any I have ever received.

I am grateful to you and felt that it to be eminently proper to express this gratitude to you.

Yours very truly,
A. V. MASON

Peaches

ELBERTA

Prices of All Varieties of Peach Trees

		Height		Caliper		Each	Ten	Hundred

Smaller Size	1 Year	2½ to 3½ Feet		5/16 to 7/16	X	.50	3.00	20.00

RATES—Less than ten at each rate. Ten to fifty at ten rate. Fifty or more at hundred rate.

PARCEL POST. First Class 2½ ft. small size trees sent parcel post, postage prepaid, 40c each, \$2.75 per ten.

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st. 6 per cent discount before April 15th. 3 per cent discount after April 15th.

Soil. Peach trees will succeed on any kind of rich soil, but will not thrive on clay, nor damp, low land.

Peach scions for budding were cut from bearing trees in the orchard of Frank E. Yarker, Charlotte, N. Y.

May 22, 1926
Holliston, Mass.

Gentlemen:

The trees were received the 17th and are coming along very nicely. I want to take this opportunity to thank you for the very nice way in which you have taken care of us this season.

I have never seen a better lot of trees than you shipped this spring.

We have planted about eleven hundred Maloney trees and will be in the market for more next season.

Yours very truly,
J. W. HULBERT, SUPT.
Crestmere Farm

ALEXANDER—Medium, greenish white, nearly covered with rich red, melting, juicy, sweet. July 1st. Free.

BELLE OF GEORGIA—Very large, white peach with red cheek. The flesh is white, firm and of fine flavor. Tree rapid grower and productive. Free. Aug.

CAPT. EDE—A handsome yellow peach, with a faint blush of carmine, resembles Elberta. Fine quality and a splendid shipper. Early September. Free.

CARMAN—Fruit large, color creamy white or pale yellow with deep blush; flesh tender, fine flavor and quite juicy; very hardy and productive. This is a favorite with many growers, as it is a most profitable variety. Early August. Free.

CHAIR'S CHOICE—Has no superior in quality and flavor, and for profit is without a rival; large, yellow, free, rich in color, flesh very firm, ripens after Smock; great bearer. October. Free.

CRAWFORD'S LATE—Fruit of large size; skin yellow, or greenish yellow, with a dull red cheek; flesh yellow; tree vigorous, moderately productive. Last of September. Free.

CRAWFORD'S EARLY—A magnificent large yellow peach, of good quality. Tree vigorous and very productive. Its fine size, beauty and productiveness make it one of the most popular sorts; no other variety has been so extensively planted. First of September. Free.

CHAMPION—Fruit large, beautiful in appearance, flavor delicious, skin creamy white, with red cheek; valuable for commercial orchards, extreme hardiness and splendid quality make it a favorite. Late August. Free.

CROSBY—Medium size; bright orange yellow streaked with carmine. One of the best standard market sorts. First of September. Free.

ENGLE'S MAMMOTH—Large, round, suture slight; yellow with red cheek; flesh yellow, stone small; sweet, rich, juicy. September. Free.

ELBERTA—The leader of all peaches and the greatest commercial variety on the market; 50 per cent of the peaches planted are Elberta. In all probability no peach will succeed over so wide a range of territory as this kind. It will thrive where any peach can be grown. A beautiful peach of good quality, not only the best orchard variety, but also valuable for planting in the garden. Elberta is hardier in bud than many varieties, therefore a more uniform cropper. It is large, yellow, with red cheek, juicy and high flavor; flesh yellow. Season medium early, following quick upon Early Crawford. Early September. Free.

FITZGERALD—It is one of the hardiest peaches, both in bloom and tree; very prolific, large size. First of September. Free.

GREENSBORO—A valuable variety; color greenish-white, shaded and splashed with dark red, very hardy and not so subject to rot as are most early varieties. Owing to extreme hardiness of both tree and bud we recommend it for sections where other varieties do not succeed. Late July. Free.

HILEY (Hiley Belle.)—A large, smooth, early white peach, highly colored on sun-exposed side; of excellent quality; flesh creamy white; freestone; a profitable commercial variety as it ripens early and is a good shipper. August.

HILL'S CHILI—Fruit medium size, oblong; skin yellow, shaded with dark red; flesh yellow; very rich and sweet. First of September. Free.

J. H. HALE—Recently introduced. Is usually large in size of fruit and highly colored. It averages one-third to one-half larger than Elberta; ripens about five days earlier and is much superior in flavor. Color, a deep golden yellow, with carmine blush. An excellent shipper and should be in every garden or orchard. Ripens latter part of August.

KALAMAZOO—Large, golden yellow, with crimson cheek; flesh thick yellow, superb quality, small pit. Strong grower, early bearer, hardy and productive. First of September.

MOUNTAIN ROSE—Large, red, white flesh, juicy and excellent. Early August. Free.

NIAGARA—Tree hardy, healthy in leaf and bud and bears abundantly. Fruit large, oval, yellow with brilliant red cheek. The stone parts freely from the flesh. Flavor rich and delicious, far ahead of Elberta in this respect. It is indeed a rival for this famous peach. Season is medium early, coming in just before Elberta, overlapping it one week. Last of August. Free.

OLD MIXON FREE—Large, roundish, yellowish, white, marked with red. Early September. Free.

ROCHESTER—Is in a class by itself because it is the only good sized yellow freestone peach of fine quality ready for market in the middle of August in the northern states. The fruit is large, yellow with a most attractive red blush; juicy and delicious and keeps well. Free.

SALWAY—Large, roundish ovate, yellow, with a crimson cheek; flesh deep yellow, red at the pit; sweet, juicy, good. Valued as one of the best late peaches for market. October. Free.

SMOCK FREE (Beer's Smock)—Fruit large; oval; skin orange yellow, mottled with red; a good market sort. Last of September.

WONDERFUL—Large peach, uniform in size and shape. Rich golden yellow color nearly covered with bright crimson. Middle of October. Free.

YELLOW ST. JOHN—Of medium size, orange yellow with a red blush on sunny side; flesh tender, juicy and quality very good. Tree is a strong grower and bears heavy crops every season. Reaches the market at a time when the demand for early fruit is at its height. Middle of August. Free.

WHY MALONEY TREES ARE UNEQUALLED

ALL our trees are budded on whole branched root imported seedlings. All scions for budding cut from our bearing orchards which enables us to guarantee them true to name and free from disease for they are inspected by a New York State Inspector.

Furthermore, we use steam power for digging, as illustrated on page two, which insures longer and more fibrous roots than when dug by horse power.

For Best Results Plant Maloney Trees

Dwarf Fruit Trees

DWARF fruit trees bear larger, better fruit; bear several years earlier and produce more returns for a given space than standard trees. There are even more important points. The low, broad heads are within reach so that apples or pears can be easily picked. You can plant dwarf trees in your garden and still grow strawberries and most vegetables. With dwarfs some varieties will bear the first year, all will the second, and bear a full crop the fourth year.

Dwarf Apple trees are budded on Paradise or Doucin stock, and Dwarf Pear trees are budded on Quince stock. They will succeed in many places where standard trees fail. In a word, they are the kind of dwarf trees that will put their strength into fruit instead of wood.

How to Plant—For your information cherry roots must not be given much sun or wind exposure—either is just as harmful as a heavy frost. You would not think of leaving them out over night uncovered. It is just exactly as necessary to protect them from sun and wind.

Requires Least Attention of All Fruits, because it has been demonstrated beyond question of doubt that scale cannot live on cherry.

Where to Plant—On any kind of land, other than wet. They will thrive beautifully on a sandy or gravelly soil.

10% Will More Than Pay Transportation Charges.

NAPOLEON

Sweet Cherries

BLACK TARTARIAN—This fine old variety produces immense crops of very large, purplish black fruits of mild, sweet, jelly-like consistency. The tree makes a beautiful, erect growth. Late June and early July.

BING—This valuable new black cherry succeeds everywhere. Tree very thrifty and upright grower, very hardy and productive, flesh very solid, flavor of the highest quality, a fine shipping and market variety. It is one of the most delicious sweet cherries. This valuable cherry should be followed by Lambert, which is later in ripening. Both are grand cherries. July.

GOVERNOR WOOD—One of the best cherries; very large, light yellow, marbled with red; juicy, rich, and delicious; tree healthy and a great bearer; hangs well on the trees; vigorous. Last of June.

LAMBERT—A fine sweet variety originating in Oregon, and one of the largest of all cherries; dark purple red, turning almost jet black when ripe. Flesh firm, rich, juicy, tree rugged, strong grower and an enormous bearer. The growing of the sweet cherry is a great industry only fairly well begun. There is

an enormous market for the fresh fruit and when canned or preserved the markets of the world are open to the producer. Late July.

NAPOLEON—Tree medium size, erect with roundish head, fruit borne generally in twos, very large, oblong cordate, light lemon yellow with red cheeks in the sun. Flesh very hard, brittle, colorless, reddish at the stone. Good, excellent bearer. Ripe about June 20th.

SCHMIDT'S BIGGARREAU—The fruit is of very large size, of a deep mahogany color. The flesh is dark, tender, very juicy with a fine, rich flavor. Fruit grows in clusters. It is an excellent shipper and brings good money on the market. July.

WINDSOR—A splendid, large, liver-colored cherry that hangs a long time and rots but little. The flesh is remarkably firm and good, the tree very hardy and fruitful. Exceedingly valuable for late market and home use. July.

YELLOW SPANISH—Large, pale yellow, with red cheeks; firm, juicy and excellent; one of the best light colored cherries; vigorous and productive. Last of June.

Sour Cherries

DYEHOUSE—A hardy and valuable cherry. The earliest cherry of fine quality. Often bears at two years old, and has the appearance of being covered with a purple cloth, such is the abundance of the fruit. Has the smallest pit of any cherry known. For tarts, pies, and especially for canning it has no superiors among cherries. Early June.

EARLY RICHMOND—This is one of the most valuable and popular cherries and is unsurpassed for cooking purposes. This hardy cherry fruits on young trees soon after planting. It is the good old variety that yields such marvelous crops in the gardens. The most hardy of all varieties, uninjured by the coldest winters. Tree slender in growth, with a roundish spreading head, exceedingly productive. Fruit is medium size, round and dark red. The flesh tender, juicy, and sub-acid. Ripens in June.

ENGLISH MORELLO—Without doubt one of the most valuable of this class. Easily grown, generally producing a heavy crop. Fruit dark red, quality good, with a rich, acid flavor; late. Tree very hardy, for extremely cold latitudes. August.

MAY DUKE—Large red; juicy and rich; an old, excellent variety; vigorous, productive. June.

MONTMORENCY—This is the best of all the sour varieties of cherries. There is a greater demand on the market for this cherry than for any other. The trees are the cleanest and best growers and are less subject to disease, less affected by wet weather, and are the best bearers of all sour varieties. No matter how unfavorable the season may be Montmorency can be depended upon for a full crop. The Montmorency is a good shipper, very attractive looking and always brings good prices. The canning factories are always wanting them by the hundreds of tons. The fruit is good sized, fine flavored and bright clear red. The flesh is of fine quality and sub-acid. Fruit ripens ten days after Early Richmond.

OSTHEIM—A hardy cherry from Russia. It has been tested in the severest winters of Minnesota, and has been found perfectly hardy. Fruit large. July.

WRAGG—Much like the English Morello. One of the hardiest cherries. August.

Plums are hardy and grow vigorously in nearly all sections, succeeding on any soil that grows good corn or potatoes. Plum trees are planted about as far apart as peaches; that is, from 15 to 18 feet apart each way.

European Varieties

BRADSHAW—A very large and fine early plum, dark violet red, juicy and good. Very productive; valuable for market. The tree is very hardy and vigorous. Middle of August.

FELLEMBERG PRUNE—A fine prune, oval; purple; flesh juicy and delicious; parts from the stone; fine for drying; tree very productive. Early Sept.

GERMAN PRUNE—Medium; oval; purple or blue; juicy, rich, fine. Tree vigorous and very productive. One of the best. Sells for higher prices in market on account of high quality. A leading favorite. There is no easier grown fruit that gives greater or more certain profit than the German Prune. Owing to its keeping qualities it is highly prized for shipping. September.

GRAND DUKE—One of the best late plums for market, as large as Bradshaw, of same color, entirely free from rot. Last of September.

ITALIAN PRUNE—Good size, purple, juicy, delicious, fine for drying. Sept.

IMPERIAL GAGE—Rather large, oval, greenish. Flesh juicy, rich and delicious. Parts from the stone. Tree a vigorous grower, very productive and one of the best of plums. Middle of August.

LOMBARD—It is a handsome reddish plum, the flesh yellow, juicy and pleasant. It is an excellent variety and can be relied on for a crop when other varieties fail. August.

MALONEY PRUNE—Color dark blue. Flesh yellow and delicious. Tree is a splendid grower, extremely hardy. It comes into bearing at an early age. This is just the variety that the orchard man has been looking for. Season extending from September until freezing weather.

MONARCH—Tree robust, dense foliage, and abundant bearer. Fruit very large, roundish, oval, dark purplish blue, perfect freestone. Follows Grand Duke in ripening. October.

MOORE'S ARCTIC—Fruit grown in clusters. Color dark blue or nearly black when fully ripe. Sept.

INSIDE VIEW OF PACKING HOUSE

Experienced men together with our modern equipment make it possible for us to pack your stock so as to have it arrive in excellent condition.

BRADSHAW

NIAGARA—Red, large size, makes an attractive appearance in market, and possesses good shipping qualities. It bears enormous crops of fruit. Tree is an upright grower, vigorous and healthy. Middle of August.

POND—A magnificent plum, red. September.

SHIPPER'S PRIDE—Large, nearly round; dark purple; quite juicy, sweet; splendid shipper; moderate grower; productive. September.

SHROPSHIRE DAMSON — Fruit oval; tree a good grower and enormously productive; fruit of medium size produced in thick clusters or groups, dark purple color, esteemed for preserving. October.

YELLOW EGG—Golden yellow covered with thick bloom. Flesh golden yellow. Rather juicy. Tree large, very productive. September.

YORK STATE PRUNE — Large size, color dark blue, covered with purple. Delicious. One of the largest, best in quality, and most productive of all prunes. Tree is a vigorous grower and hardy. This variety is being planted extensively and is considered the best for commercial purposes. Last of Aug.

Japanese Varieties

ABUNDANCE—One of the best Japan Plums. The tree a rapid grower, healthy, comes into bearing remarkably young and yields abundantly. Fruit of medium size, amber, with markings of red; juicy, sweet, of good quality. August.

BURBANK—Is decidedly the best of Japan varieties, unsurpassed for beauty and productiveness, as well as a very hardy tree. One of the grand points about the Burbank is that it succeeds over a wide

range of our country, and will stand the most severe winters. Fruit large, oval, with reddish purple skin; flesh yellow, juicy, and good. August.

RED JUNE—The great early market plum. Medium to large; deep vermillion red, with beautiful bloom; very showy; flesh light lemon-yellow, firm, slightly sub-acid, delightful. Best in quality of any of the early Japanese plums; free from rot. Early Aug.

WICKSON—This, largest of the Japan plums. The color is bright cherry-red, covered with a light bloom; the pit is small for so large a fruit, the flesh is thick, sweet, tender and rather dry, indicating good keeping and shipping qualities. September.

2 YEAR BLOCK PLUM TREES UPLAND GROWN

Quinces

ORANGE

Prices of All Varieties of Hardy Upland Grown Quince Trees

		Height	Caliper		Each	Ten	Hundred
Largest Size	2 Year	4 to 5 Feet	$\frac{5}{8}$ and up	XXX	.80	\$7.00	\$60.00
Medium Size	2 Year	3 to 4 Feet	$\frac{1}{2}$ to $\frac{5}{8}$	XX	.70	6.00	50.00

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st.

6 per cent discount before April 15th. 3 per cent discount after April 15th.

CHAMPION—A large, late-ripening sort, that produces good and constant crops. One of the best for sections not subject to early frosts. Last of Oct.

ORANGE—Buds secured from Fred Grover's orchard, Pultneyville, N. Y. Every one is acquainted with the Orange Quince, a good old variety that never disappoints the planter; good for home use and for

market. Fruit large golden yellow of fine quality. It rarely fails to produce a crop. Ripens in October.

MEECH'S PROLIFIC—Fruit is large, orange yellow, of great beauty and delightful fragrance.

REA'S MAMMOTH—Excellent flavor and very productive.

Russian Apricots

BEAUTIFUL and delicious fruit. In quality and appearance is between plum and peach, combining qualities of both. Ripening early, together with its delightful flavor, makes it one of the most valuable fruits. Tree hardy as the peach. Requires about the same cultivation as the peach or plum. It ships well and commands a good price in any market. For drying and canning it has no superior. The Russian varieties are quite distinct from the other European sorts; much hardier, earlier bearers and productive.

ALEXANDER—Very hardy and immense bearer; fruit large; yellow flecked with red; very beautiful, sweet and delicious. July.

ALEXIS—Very hardy and abundant bearer; yellow with red cheek; large to very large; slightly acid, rich and luscious. July.

MOORPARK—One of the largest. Orange with red cheek; firm, juicy, with a rich flavor; very productive. August.

Price of All Varieties of Apricot Trees

		Height	Caliper		Each	Ten	Hundred

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st.
6 per cent discount before April 15th. 3 per cent discount after April 15th.

Large Planters' Endorsement of Maloney Stock

Orrtanna, Pa., April 2, 1926.

Gentlemen:—

We are unloading the car of cherry trees and they certainly are a mighty nice lot of trees.

Our order now totals 18,400 cherry trees.

Again we want to give our appreciation for the fine trees and satisfactory dealings we have had with your firm.

Very truly yours,
ORRTANNA CANNING CO.

Espy, Penna., November 24, 1926.

Gentlemen:—

The 5,200 fruit trees purchased from you Spring of 1926 were among the finest I have ever bought. The root system of your trees showed wonderful development and this means tree insurance. Your prompt shipment we appreciated as well as your other courteous treatment.

Very truly yours,
C. F. ABBOTT.

The house of Maloney has been established over forty years. Whether you buy \$1.00 or \$1000.00 worth of our stock you can't go wrong in buying from us by mail for we pledge ourselves to give service that means complete satisfaction. No transaction with us is complete until your satisfaction is complete.

Why We Can Sell Trees At One-Half Agents' Prices

It is impossible for the agent to sell you trees or plants at our prices for he represents some retail house which buys from the grower, who must make a profit. This we will term profit No. 1. The retail house he sells for must have a profit which is profit No. 2. Then the agent who has big traveling expenses must get a price high enough to cover his expenses, as well as his commission, which is profit No. 3. Consequently the same tree which we sell direct by catalog for 80c, the agent must necessarily sell for \$1.60 to \$2.00.

The 10% Discount Will More Than Pay Transportation Charges.

Soil. Pears will succeed in a clay soil, although any good heavy soil will do, but avoid planting on sandy loam.

County Court, Buffalo, N. Y.
Nov. 4, 1926.

Gentlemen:—

The shipment of shrubs and privet arrived safely, and I wish to thank you very much for the fine selection and quality that you sent me.

Yours very truly,
GEO. H. ROWE

Bellows Falls, Vt.
October 25, 1926.

Gentlemen:

I want to thank you for the dandy trees you sent me; beautiful roots, wonderfully packed, best we have received from six different nurseries.

You will get my business in the future.
Very truly yours,
J. H. BLAKLEY

BARTLETT—Large, coloring when fully ripe to waxen yellow with red blush; juicy, melting, highly flavored, a most delicious fruit; tree bears early and abundantly. We have sold many large orchards of this variety. The fruit ripens just at a time when there is but little competition; in fact, there is no pear ripening at the same time that is in the Bartlett class. It might surprise you to know—that there are more of this variety planted than all other kinds of pears combined. That speaks for itself, does it not? You will never make a mistake when planting Bartlett. September.

BEURRE D'ANJOU—This is one of the best known, most popular and profitable late pears. The tree is a vigorous grower, hardy and prolific. The pears are of large size, green in color, but often yellowing when thoroughly ripe. They are very juicy and luscious and of the best quality. For late fall and very early winter use, we have no better variety. It keeps until January with special care. It is beautiful in shape and color. Season Oct. and Nov.

BEURRE CLAIRGEAU—Large; light yellow, shaded with crimson and russet. Flesh yellowish, melting. Early abundant bearer. November to January.

BEURRE BOSC—A large and beautiful russet pear, very distinct with a long neck; melting or nearly so, highly flavored and delicious, bears well. October.

CLAPP'S FAVORITE—A superb large, long yellow pear, richly flushed, with russet-red next the sun. The flesh is fine grained, juicy, melting and buttery. A cross between Bartlett and Flemish Beauty; earlier than Bartlett and resembling Flemish Beauty in growth. It is as hardy as the Flemish Beauty; a fine grower and extremely productive. Early Aug.

DUCHESS D'ANGOULEME—A most dependable cropper often fruiting the first season after planting. Fruit large, frequently weighing a pound. A dull greenish yellow, spotted russet, flesh white, rich and good quality. An all-round profitable market pear. October and November.

FLEMISH BEAUTY—Considered one of the hardest and best for the northwest in which location it bears great crops of perfect fruit. Sept. to Oct.

BARTLETT (Reduced)

KOONCE—Tree vigorous, upright grower; fruit medium size; skin greenish-yellow; flesh whitish, juicy, good quality. August.

KIEFFER—Large, rich golden yellow, sometimes tinted red on the sun exposed side; fair quality. It has become a profitable market variety on account of its good shipping and keeping qualities. To properly ripen should remain on the trees until leaves begin to fall, then gather carefully and allow to ripen in a cool dark cellar, or other place of even temperature. Tree a most vigorous grower, an early bearer, one of the most resistant to blight, very prolific, and widely planted throughout the country.

LAWRENCE—Medium to large, golden yellow, with melting, aromatic flesh. Unsurpassed as an early winter pear. The tree is hardy, healthy and productive, bearing large crops annually. November and December.

SHELDON—A large, round, russet and red pear of very fine quality, melting, rich and delicious. Tree vigorous, erect and handsome, bears well and should be more largely planted. October.

SECKEL—A beautiful and delicious little pear that is the standard of excellence in its class. One of the richest and highest flavored pears known, always in demand. The tree makes a somewhat slow but stout and erect growth. Owing to its extreme hardness it can be planted in cold climates with the assurance of best results. September and October.

VERMONT BEAUTY—Yellow, bright carmine cheek. Tree is very hardy and thrifty. October and November.

WILDER—A very early Pear of excellent quality. Medium to large size, irregular, bell shaped; pale yellow with shadings of russet-red. Early August.

WINTER NELIS—Without exception the finest winter variety produced. Tree very hardy and a heavy cropper. Fruit of medium size and roundish, yellow in color, covered with russet. The flesh is yellow, sweet and fine grained. Unexcelled for quality when fully ripe. December.

SECKEL

Maloney Extra Large Garden Trees

For Your Back Yard

BY this we mean trees which have been especially selected, once transplanted and scientifically treated. They will come into fruiting early. We guarantee your success provided you follow the simple directions for planting on this page.

The value of these trees lies in the fact that they are what you might term "the cream of our nursery." We have cared for them until they have developed into just the kind of trees for your back yard or small home orchard.

A great many people make the very serious mistake of selecting small trees for their garden planting, when a few extra cents invested now will purchase trees which will fruit much earlier.

From the fact that these trees have once been transplanted, they are equipped with a beautiful root sys-

tem which enables them to become established quickly. Before planting be careful to have your soil loose and mellow.

Just read the planting directions on this page and see how easy it will be for you to set your EXTRA LARGE GARDEN TREES.

Planting Instructions

Cut off about six inches of the limb growth, prune off bruised ends of roots, if any, make a smooth cut, dig hole deep enough so that the tree will be buried to the same depth as when standing in the nursery row, or up to the collar—soak roots in the water one-half hour, place trees in hole, fill in one-fourth, tread well; another one-fourth, tread well, the third one-fourth, tread well; then finish filling and tread firmly so that when the tree is set it would require a strong man to pull it out.

Prices of All Extra Large Carefully Selected Garden Trees

Black Raspberries

PLUM FARMER

Price of 2 Year Strong Plants Best Selected Varieties

25 for \$1.00

100 for \$3.50

1000 for \$27.50

PARCEL POST. Raspberries can be sent by parcel post, postage prepaid for one cent per bush extra.

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st.
6 per cent discount before April 15th. 3 per cent discount after April 15th.

CUMBERLAND NEW BLACK—This new berry combines the equally valuable characteristics of great firmness, splendid quality and wonderful productiveness. Fruit firm. Midseason.

KANSAS BLACK—This variety is a strong, vigorous grower, standing extremes of drought and cold, and bearing immense crops. Early. Berries size of Gregg, of better color; jet black and almost free from bloom; firm, of good quality.

PLUM FARMER BLACK—This very large and productive black raspberry has been thoroughly tested. It is a great favorite for market or home use. It is covered with a grayish bloom, like the bloom on a grape, which makes it very attractive in appearance. It ripens very early and quickly. The fruit is enormously large.

Purple Raspberries

25 for \$1.25

100 for \$4.00

1000 for \$30.00

COLUMBIAN PURPLE—A strong grower, unexcelled for productiveness and desirable for canning. Fruit very large, purplish color, rather soft; rich, sprightly flavor.

The 10% Discount will pay transportation

ST. REGIS

Red Raspberries

Price of all 2 Year Strong Plants

25 for \$1.00, 100 for \$3.50, 1000 for \$27.50

CUTHBERT—This is a valuable variety well tested throughout the country. Cuthbert is a good vigorous grower and possesses vitality necessary for a popular variety. It yields bountifully of large and beautiful bright red berries, which are easily picked and always command good prices. No fruit grower can afford to omit planting Cuthbert, and surely no person who has a garden should attempt to get along without red raspberries.

LOUDON—Very hardy, yields 200 bushels per acre, bears best on strong clayey loam, but succeeds well on sand.

ST. REGIS (Everbearing)—This is a valuable addition to the Red Raspberry list. It is the only variety known that gives a crop of fruit the same year they are planted. Plants that are set early in the Spring will give a small crop of fruit the Fall following. In size, quality and quantity, to say nothing of its Fall bearing quality, it is ahead of anything we know of. About the middle of June it commences to set fruit on the young canes and bears continuously from then until frost. The berries are large, beautiful and attractive.

LATHAM (Red)—A new variety of great promise. Is being tested on the grounds of the New York Agricultural Station at Geneva, N. Y., and is very highly recommended by them.

Prices: Strong Bushes of Latham, 25 for \$3.00, 100 for \$8.50.

CUTHBERT

Blackberries

Price of 2 Yr. Strong Plants Best Selected Varieties

25 for \$1.50

100 for \$4.50

1000 for \$35.00

10 per cent Discount on All Cash orders mailed before April 1st.

6 per cent Discount before April 15th. 3 per cent Discount after April 15th.

BLOWERS—Claimed to be the hardiest, most productive, of finest quality and to bring the highest market price.

ELDORADO—The vines are very hardy and vigorous, and their yield is enormous. The berries are large, jet black, borne in large clusters and ripen well together; they are very sweet, melting, have no hard core and keep for eight or ten days after picking with quality unimpaired.

MERSEREAU—Remarkably strong grower, upright, producing stout, stocky canes. An enormous producer of extra size berries, which are brilliant black and retain color; extra quality; sweet, rich and melting, without core. Ripens very early.

MINNIEWASKA—Its principal points are hardiness, excellent quality, earliness, and continued bearing and productiveness.

SNYDER—Extremely hardy, enormously productive; medium size, no hard, sour core; sweet and juicy. Ripens early.

ELDORADO

PARCEL POST. Berries can be sent by parcel post, postage prepaid, for one cent per bush extra.

Strawberries

PRICE OF ALL VARIETIES

Express: \$1.00 per 25, \$2.50 per 100, \$10.00 per 1000.
Mailed, postpaid: \$1.25 per 25, \$2.75 per 100.

BRANDYWINE—(Per.) Late. The strong, upright growing plants produce an abundance of very large berries on erect fruit stems. They are of good color and shape and possess a very fine, peculiar flavor. Begins to ripen in mid-season, and continues until blossoms are killed by the frost.

CORSICAN—A great strawberry for many reasons. First, it is the biggest berry; second, it is the brightest and best in color; third, it is a great yielder and producer.

GIBSON—(Per.) Gibson is fast becoming the leading commercial variety in the U. S. It grows and succeeds in every soil and climate, which cannot be said of many varieties. If restricted to one variety, Gibson is the berry we would choose.

SENATOR DUNLAP—(Per.) Season early to medium; popular market sort. It withstands all conditions of weather

CORSICAN

beyond the average. Very productive; dark red all through.

WILLIAM BELT—(Per.) A handsome variety that is giving remarkable satisfaction as a large productive berry for market or home use.

All Strawberry Plants will be Shipped the First Week in May

Fall Bearing Strawberries

Price, Mailed Postpaid: 25 for \$1.75, 100 for \$3.75.
Express: 25 for \$1.50, 100 for \$3.50

Americus Superb Productive

These varieties will fruit from June until freezing weather.

Garden Roots

Rhubarb or Pieplant. **LINNAEUS**—Large, early, tender and fine. The very best of all. PRICE, 2 Year Strong Plants, 20 cents each, \$1.50 per 10, \$10.00 per 100.

Asparagus

PRICE, 2 Year Strong Plants. \$1.00 per 25, \$2.00 per 100, \$12.00 per 1000.

PALMETTO—A very early variety, even, regular size and of excellent quality.

CONOVER'S COLOSSAL—Very large, makes rapid growth; planted mostly by market-gardeners; very productive.

WASHINGTON—A new rust resistant variety. Stalks are large, dark green with a heavy purple overtone.

Sage. **HOLT'S MAMMOTH**—Plants of strong growth.

Price of strong 2 year roots, 30 cents each, 10 for \$2.50

ASPARAGUS

PIEPLANT

Horse Radish

Hardy roots. Plant in deep, rich soil.

50 cents per 10, \$3.00 per 100

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st. 6 per cent discount before April 15th. 3 per cent discount after April 15th.

Garden roots can be sent by parcel post, postage prepaid, for one cent per root extra.

Currants

Price of All Varieties of Currant Bushes

2 Yr. No. 1 Strong Bushes—Each 20c, 10 for \$1.50, 100 for \$12.50

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st. 6 per cent discount before April 15th. 3 per cent discount after April 15th.

PARCEL POST. Currants can be sent by parcel post, postage prepaid, for 2 cents per bush extra.

CHERRY—Bush vigorous, stocky and compact; cluster rather short, with short stems; fruit averages large; color fine, bright red; berry thin skinned, juicy and fine flavored. One of the most productive of the large currants.

DIPLOMA—Large, solid and of good quality, very attractive appearance, both clusters and berries being very large. Vigorous grower and the most productive red currant.

FAY'S PROLIFIC—Bush vigorous but not quite so strong a grower as Cherry. Cluster medium to long, with rather long stems. Color darker and berry averages large. Juicy and less acid than Cherry.

PERFECTION—In color it is a beautiful bright red, a size larger than the Fay; clusters average longer and the size of berries is maintained to the end of the bunch.

RED CROSS—A strong growing variety. Cluster long; berry medium to large, bright red; quality good to best. It is exceedingly productive, and the currants are of large size. Further than this, the fruit is far sweeter than ordinary currants.

WHITE GRAPE—Berries large to very large, averaging large; of very attractive color, mild flavor and good quality.

WILDER—Bush upright, vigorous; clusters above medium length; berries large to very large, averaging large; bright red; excellent, with a mild sub-acid flavor. Ripens early and remains bright and firm until very late. Because of its exceedingly vigorous growth, great productiveness, and high quality we recommend this as one of the best red currants.

WILDER

Gooseberries

DOWNING

States Into Which Gooseberries and Currants Can Be Sent

Connecticut, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Oregon, Pennsylvania, Rhode Island, Vermont, Wisconsin.

Prices for all varieties of Gooseberries named below, strong 2 year bushes, 30 cents each, 10 for \$2.50, 100 for \$22.50.

Parcel Post 2c per bush extra.

CHAUTAUQUA—An excellent variety for the home garden. Large, greenish yellow, excellent quality, sweet. Vigorous, upright bushes, hardy and productive.

DOWNING—Large size, fine quality, beautiful appearance, vigorous growth, and freedom from mildew. Downing is free from spines, of a transparent color, tending to yellow; bush upright, keeping the fruit from the sand.

JOSSELYN—Marvelously productive and bears second, if not the first year planted. The fruit is of large size, color dark red.

RED JACKET—Large size, smooth, prolific and hardy, of best quality. Has been well tested by the side of all the leading varieties, and so far the most free from mildew, both in leaf and fruit, of them all. A wonderful cropper.

Grapes

Price 2 Year, No. 1 Strong Vines, All Varieties Except Concord and Caco—Each 25c, 10 for \$2.00, 100 for \$18.50. CONCORD—Each 20c, 10 for \$1.50, 100 for \$10.00. CACO—Each 75c, 10 for \$7.00.

PARCEL POST. Grapes can be sent by parcel post, postage prepaid, for 2c per vine extra.

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st.
6 per cent discount before April 15th. 3 per cent discount after April 15th.

CONCORD

EVERY city and country garden should have a dozen or more grape vines. They do admirably trained up the side of any building, or along the garden fences, occupying little room and furnishing an abundance of the healthiest fruit. Plant about 8 feet apart, by the fence or building. For vineyards, make rows 8 feet apart, 6 to 10 feet in rows.

CACO (Red)—This new red grape has a most delicious flavor and is of the highest quality. It is one of the earliest grapes in ripening.

CATAWBA—Dark red when fully ripe. Bunch large, berries medium to large, skin thick, flesh somewhat pulpy, best for wine.

CONCORD—Black. Early. Decidedly the most popular Grape in America and deservedly so. Bunch large, shouldered, compact; berries large, covered with a rich bloom, skin tender, but sufficiently firm to carry well to distant markets; flesh juicy, sweet, pulpy, tender; vine a strong grower, very hardy, healthy and productive. For general cultivation the most reliable and profitable.

CAMPBELL'S EARLY BLACK—Strong grower, productive. Its keeping and shipping qualities are equalled by no other grape. Bunch and berry very large, glossy black with blue bloom, sweet and juicy, seeds few and small, parts readily from the pulp. Stands at the head of early black grapes for quality.

DELAWARE—Red. Bunches small, compact, shouldered, berries rather small, round, skin thin, flesh very juicy, sweet, spicy and delicious.

LUCILE—Bright red. It is very hardy and vigorous. Bunches and berries medium to large. This variety is a very good shipper.

MOORE'S EARLY BLACK—Bunch large, berry large, round with heavy bloom; vine exceedingly hardy. Its earliness makes it desirable for an early market.

NIAGARA WHITE—Occupies the same position among the white varieties as Concord among the black; the leading profitable market sort. Bunch and berries large, greenish white changing to yellow when fully ripe. Skin thin but tough; quality much like Concord.

WORDEN—Black. Bunch large, sometimes shouldered, compact; berries very large, skin thin.

GRAPE COLLECTION NO. 21

6 two-year, No. 1 Strong Vines for \$1.50

2 Concord (Black)

1 Caco (Red)

2 Niagara (White)

1 Lucile (Red)

The Landscape Department

OWING to the many requests, asking what varieties of trees, shrubs, roses, etc., to plant for best effects and where to plant them, we started a Landscape Service Department two years ago for the convenience of our customers.

In this department we are employing landscape architects, who are familiar with the habits of varieties, who know the positions required for the different kinds, and who have an extensive knowledge of trees and plants.

Two years ago we offered this service free, but this was not exactly satisfactory, as some people seemed to feel that it put them under obligation to us—so last year we hit upon another plan which we thought would be satisfactory to everybody, namely, send in the information requested below, and our landscape department will draw you a complete plan showing what varieties to use and where to plant them. For this plan we will make a charge of \$4.00. Then if you decide to use the plan in whole or in part, we will give you credit for the entire \$4.00 on your invoice for the stock.

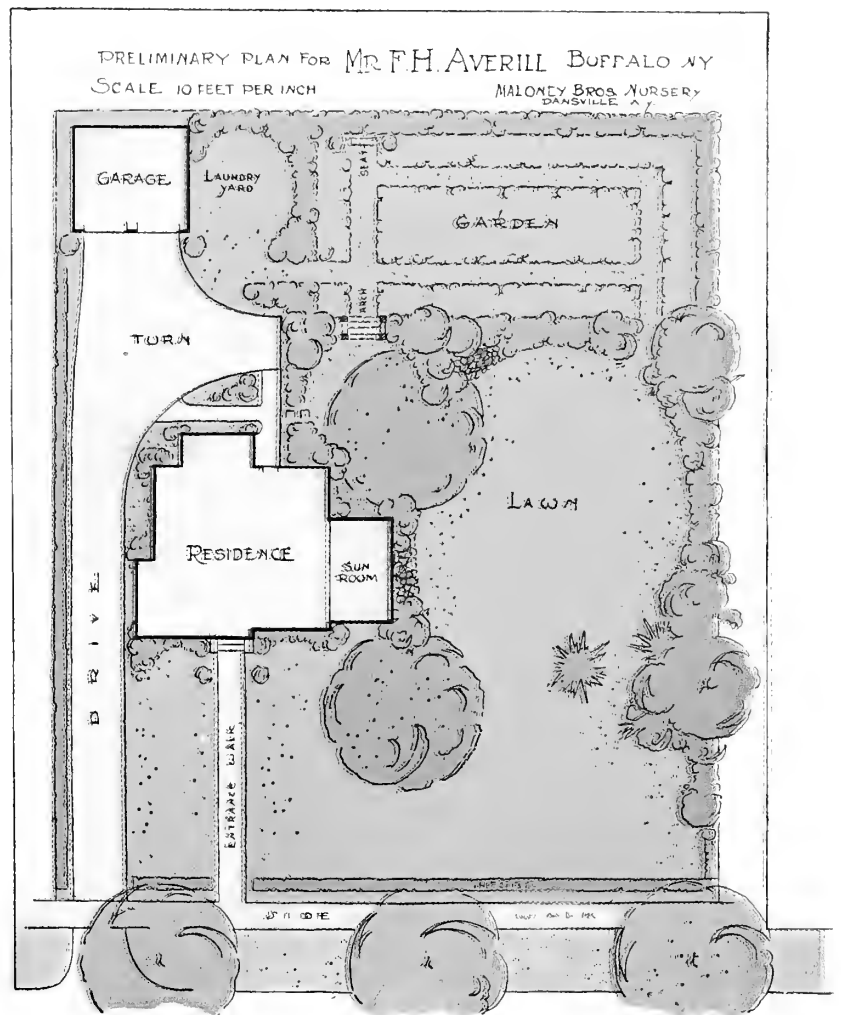

If you want us to plan your planting, please give us this

Necessary Information

(The accuracy of our plan depends upon the information you give us, so be complete and exact.)

Dimensions of Property, Dimensions of Buildings (Show ground floor plan on sketch and give complete dimensions)—Distance of Buildings from Property Lines (Locate in respect to Front, Back and Side Lines) Cost of House, Style of Architecture—Locate all entrances, Locate walk and drives and give width; Locate porch and basement windows; (Indicate Coal and Laundry Windows); Show number of steps; Locate existing trees and shrubs of any description; Indicate any terraces or sloping ground; Give directions of the compass; Indicate objectionable features to be screened; Indicate views to be retained; Send any available photographs. Do you want a vegetable and fruit garden? Do you want a Hardy Flower Garden?

Remember the plan costs \$4.00. But if you buy the stock from us this \$4.00 will be deducted from the purchase price.

NO. 69

A Home is not complete without Shrubs and Evergreens

Suggestion No. 69

\$15.00

2 American Arbor Vitae	2-3 Ft.	H. G.
2 Norway Spruce	2-3 Ft.	H. G.
2 White Spruce	2-3 Ft.	H. G.
2 Tom Thumb Arbor Vitae	15-18 in.	L. G.

HOW true it is that a home is not complete without Shrubs, Evergreens, Ornamental trees, Roses, Perennials, etc. Convince yourself by viewing a home before and after planting—which planting can be done usually at very small expense.

The American people devote considerable thought to laying out the rooms in the home so as to have it convenient and comfortable, but do not realize that for real beauty, satisfaction and comfort it is not a home until it is planted.

In assembling our varieties for the home grounds, we have endeavored to make selections of hardy types throughout; giving you color, season of flowering and height of plants at maturity, thereby enabling you to plan a continuous succession of bloom from early Spring until Winter. From these descriptions you will know that the Dwarf growing varieties of shrubs and evergreens should be planted in front of those of taller growing habits.

In the perennials and roses we have also given color and season so that you can make selection of kinds in colors that suit your taste.

The best investment you can make is a few dollars in decorative planting around the home; once planted you would not part with them for they will increase the value of your home at least twenty-five percent.

Plant this spring and enjoy the effect next summer, as all our shrubs, roses and perennials will blossom the first season.

Robinson Building, Elmira, N. Y.
Nov. 10, 1926.

Gentlemen:

Received your shipment of the Golden Syringa and the Common Snowball, which came through in good shape. Thanks for your courtesy.

Very truly yours,
H. L. GARDNER.

68 Lathrop Ave., Binghamton, N. Y.
Nov. 18, 1926.

Gentlemen:

My Hydrangea bushes came and are fine. I am so pleased with them. When I need more stock I shall know where to order them.

Respectfully,
MARY L. HAIT

2414 Ballentine Blvd., Norfolk, Va.
Nov. 20, 1926.

Gentlemen:

I wish to thank you for the fine shrubbery you sent. Some has nice little buds on already, having been set only a week. The neighbors are all admiring it and speak of ordering some.

Assuring you that I am at all times willing to help you in any way that I can in this vicinity, I am

Truly,

MRS. G. GORDON BROWDER

824 Gordon St., Reading, Pa.
October 31, 1926.

Gentlemen:—

Received fruit trees Saturday in fine condition. Am well pleased.

Yours truly,
GILBERT ZERBE

BECHTEL'S FLOWERING CRAB

AMERICAN ELM—A natural spreading and drooping tree of our own American meadows and forests. It is very attractive in any suitable location, is entirely hardy and easily transplanted. There are more Elm trees planted along our streets and highways than any other variety.

Price, 6 to 8 feet, \$1.00 each, 10 for \$9.00; 8 to 10 feet, \$1.25 each, 10 for \$10.00.

ASH, MOUNTAIN—A very beautiful tree for ornamental planting. In the early Fall it bears clusters of bright red berries.

Price, 5 to 6 feet, \$1.50 each.

BECHTEL'S CRAB—When in bloom appears to be covered with delicate pink, perfectly double small roses of delicious fragrance.

Price, 3 to 4 feet, \$1.25 each.

CATALPA BUNGEI (Umbrella Catalpa)—Grafted on stems 6 to 7 feet high, it makes an umbrella shaped top without pruning. Perfectly hardy, and flourishes in almost all soils and climates. Leaves large, glossy, heartshaped. A very desirable ornamental.

Price of Trees, 6 to 7 feet, \$2.50 each.

CATALPA SPECIOSA—One of the most rapid growers. Large, heart-shaped, downy leaves, and compound panicles of white flowers.

Price, 6 to 8 feet, 60 cents each.

10 for \$5.00; 8 to 10 feet, 85 cents each, 10 for \$8.00.

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st. 6 per cent discount before April 15th. 3 per cent discount after April 15th.

CUT-LEAVED WEEPING BIRCH—This noble tree is not only the most popular of the weeping trees, but it is decidedly the best. Its tall, slender, yet vigorous growth, graceful branches, silvery white bark and delicately cut foliage, present a combination of attractive characteristics rarely met with in a single tree.

Price, 4 to 5 feet, \$2.00 each.

HORSE CHESTNUT, WHITE FLOWERING—The well-known European species; very handsome; has magnificent spikes of white flowers. As a lawn tree or for the street it has no superior.

Price, 5 to 6 feet, \$1.75 each.

MAPLE, ASH-LEAVED (Box Elder)—A fine, rapid-growing variety, with handsome, light green foliage and spreading head; very hardy; desirable for street planting and succeeds in many sections where other varieties do not thrive.

Price, 8 to 10 feet, \$1.75 each, 10 for \$15.00; 10 to 12 feet, \$2.00 each, 10 for \$17.50.

MAPLE, NORWAY—This is one of the hardiest ornamental shade trees, and one of the most beautiful. It makes more of a wide spreading tree than the sugar maple.

Price, 6 to 8 feet, \$2.50 each, 10 for \$22.50; 8 to 10 feet \$3.50 each, 10 for \$32.50.

MAPLE, SILVER-LEAVED OR SOFT—Foliage bright green above and silvery underneath. An exceedingly rapid grower, makes a large tree. A very satisfactory tree to plant in large quantities.

Price, 6 to 8 feet, \$1.00 each, 10 for \$9.00; 8 to 10 feet, \$1.10 each, 10 for \$10.00.

MAPLE, WIER'S CUT-LEAVED—One of the most remarkable and beautiful trees, with cut or dissected foliage. Its growth is rapid, shoots slender and drooping, as graceful as cut-leaved birch.

Price, 8 to 10 feet, \$2.00 each, 10 for \$17.50; 6 to 8 feet, \$1.75 each, 10 for \$15.00.

MAPLE, SUGAR OR ROCK—This native tree of ours is a universal favorite for street planting, and desirable everywhere. It is considered a slow grower, but it is long-lived.

Price, 8 to 10 feet, \$3.00 each;
6 to 8 feet, \$2.00 each.

MULBERRY, DOWNING—This tree is not alone valuable for the large refreshing berries it bears, but is very handsome as a lawn or street tree. This should be in every yard or garden.

Price, 6 to 8 feet, \$1.00 each, 10 for \$7.50.

MULBERRY, RUSSIAN—Very hardy, vigorous grower, very productive, fruit black and of medium size.

Price, 5 to 7 feet, 75 cents each, 10 for \$6.50.

MULBERRY, TEA'S WEEPING—The most graceful and hardy weeping tree in existence. Forms a perfect shaped head, with long, slender, willowy branches, drooping to the ground.

Price, 5 feet, \$3.00 each.

POPLAR, CAROLINA—Is one of the most rapid growers among shade trees, frequently growing eight feet during one season and thus making fine shade in two or three years. It has an advantage over other shade trees because it will grow in any kind of soil.

Prices, 10 to 12 feet, \$1.25 each, 10 for \$10.00; 8 to 10 feet, \$1.00 each, 10 for \$7.50; 6 to 8 feet, 50 cents each, 10 for \$4.00.

POPLAR, LOMBARDY—A well-known variety from its tall spire-like form. Where it is desired to mark a boundary line, or where there is an entrance to a driveway these trees are very effective. They transplant safely, grow quickly and for many purposes are attractive and desirable.

Price, 6 to 8 feet, \$1.00 each, 10 for \$8.50; 8 to 10 feet, \$1.25 each, 10 for \$11.50.

PRUNUS PISSARDI (Purple-Leaved Plum)—The smallest purple-leaved small shrub of recent introduction. The young branches are a very dark purple. Leaves when young are a lustrous crimson, changing to dark purple, and retain this beautiful tint until they drop late in the autumn; no other purple-leaved tree or shrub retains its color like this. Flowers small, white, single, covering the tree.

Price, 4 to 5 feet, \$1.25 each.

PRUNUS TRILOBA, DOUBLE FLOWERING PLUM—A highly interesting and desirable addition to hardy shrubs. Flowers double delicate pink.

Price, 4 to 5 feet, \$1.25 each.

THORN, DOUBLE PINK—Double pink or rose flowers with white tips.

Price, 4 to 5 feet, \$2.00 each.

THORN, PAUL'S DOUBLE SCARLET—Flowers deep crimson with scarlet shade; very double.

Price, 4 to 5 feet, \$2.00 each.

TEA'S WEEPING MULBERRY

WILLOW, BABYLONICA—Our common well-known weeping variety; forms a large round-headed, graceful tree; requires plenty of room, and where space can be spared, is quite desirable.

Price, 6 to 8 feet, \$1.25 each.

WILLOW, GOLDEN—This willow is especially desirable on account of its golden colored bark with light green leaves. A splendid grower.

Price, 6 to 8 feet, 50 cents each, 10 for \$4.00; 8 to 10 feet, 75 cents each, 10 for \$6.50.

Evergreens

EVERGREENS are increasing in popularity rapidly. We are now giving special attention to the propagation and culture of perfectly hardy species and varieties, such as are most useful to the general planter.

We recommend Spring planting. All Evergreens will be lifted with ball of earth and roots wrapped in burlap. Wet ground after planting until like mud, then two pails of water each week for first summer.

AMERICAN ARBOR VITAE

—A beautiful native tree much used for hedges, screens, singly on lawn and in tubs for porches. Can be trimmed and kept in any form or height.

Price, 18-24 inches, \$1.35 each, \$12.00 per 10. Price, 2-3 feet, \$1.75 each, \$15.00 per 10.

GLOBOSA ARBOR VITAE—

Forms a dense, low globe; handsome shade of green.

Price, 12-18 inches, \$2.50 each.

PYRAMIDAL ARBOR VITAE

—A valuable upright evergreen of dense compact habit. Foliage light green.

Price, 2-3 feet, \$4.00 each.

TOM THUMB ARBOR VITAE

—Small and compact. Very desirable for planting in evergreen groups and low hedges.

Price, 15-18 inches, \$2.25 each.

IRISH JUNIPER—A distinct and beautiful variety forming a tapering column. Much used for cemetery plantings.

Price, 18-24 in., \$2.25 ea., 2-3 ft. \$2.50 each.

AMERICAN ARBOR VITAE

BLACK HILL SPRUCE —

Makes a very close and compact growth. The foliage shades from green to a bluish tint. This is a very hardy variety.

Price, 2-3 ft., \$3.50 each, 18-24 in., \$2.75 each.

COLORADO BLUE SPRUCE

—This is hardy, healthy and very beautiful. Its foliage is a steel blue.

Price, 18-24 inch, \$7.50 each.

NORWAY SPRUCE—

The most extensively planted of all evergreens. It is a rapid grower, extremely hardy. Is often used for hedges or can be planted effectively in groups.

Price 18-24 inch, \$1.35 each, \$12.00 per 10, 2-3 feet, \$1.75 each, \$15.00 per 10.

WHITE SPRUCE—

Extremely hardy. On account of its compact habit of growth, regular conical outline and soft bluish green color, it is very desirable for ornamental planting.

Price, 2 to 3 feet, \$2.50 each.

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st.
6 per cent discount before April 15th. 3 per cent discount after April 15.

Hedge Plants

CALIFORNIA PRIVET HEDGE

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st.
6 per cent discount before April 15th. 3 per cent discount after April 15th.

BARBERRY THUNBERGII—A pretty plant of dwarf habit from Japan. Very graceful and its foliage turns to a beautiful red in the Fall.

2 Year Strong Plants, well branched, 18 to 24 inches, 35c each, 10 for \$3.00, 100 for \$27.50; 2-3 feet, 50c each, 10 for \$4.50, 100 for \$35.00.

PRIVET, AMOOR RIVER—Hardy. Of similar form to the California type, not so lustrous, but the safest substitute for cold climates.

2 Year Strong Plants, well branched, 18 to 24 inches, 10 for \$1.50, 100 for \$10.00; 2 to 3 feet, 10 for \$1.75, 100 for \$12.50.

PRIVET, CALIFORNIA—A vigorous growing variety of fine habit, thick, glossy, nearly evergreen leaves. Of all ornamental hedge plants this is the most highly prized. If cut to the ground one or two years after planting, it makes a very thick hedge from the bottom, sending up many strong shoots. The leaves are a rich green and will remain on the plants up to Christmas, and if they are a little sheltered they will keep green almost all winter. Set one foot apart in double rows or 20 to each 10 feet. Plant alternately—rows one foot apart.

2 Year Strong Plants, well branched 18 to 24 inches, 10 for \$1.00, 100 for \$5.00, 1000 for \$45.00; 2 to 3 feet, 10 for \$1.25, 100 for \$7.00, 1000 for \$60.00.

SPRUCE, NORWAY—This spruce is a rapid grower and is often used as a hedge fence between lots. Norway Spruce can be planted most effectively in groups on the lawn, but far enough apart to give each tree an opportunity to expand itself in its beauty.

Price, thrifty trees, 18-24 inch, \$1.35 each, 10 for \$12.00; 2 to 3 feet, \$1.75 each, 10 for \$15.00, 100 for \$125.00.

(Balled and Burlapped)

Woodhaven, N. Y., Oct. 28, '26
Gentlemen: Pleased to advise that the evergreens reached me in satisfactory condition.

Kindly accept my sincerest thanks,

Yours very truly, JAS. J. BETZ

NEW RED-LEAVED JAPANESE BARBERRY

See description and price page 37

Vines

WISTERIA, PURPLE

AMPELOPSIS VEITCHI—(Boston Ivy.) This is one of the finest climbers we have for covering walls, as it clings firmly to the smoothest surface, covering it closely with overlapping foliage, giving it the appearance of being shingled with green leaves.

Price of strong 2 year plants, 55 cents each, 10 for \$5.00.

AMERICAN IVY OR VIRGINIA CREEPER—A native vine of rapid growth, with large luxuriant foliage.

Price of strong 2 year plants, 50 cents each, 10 for \$4.50.

DUTCHMAN'S PIPE—Brownish flowers, resembling a miniature pipe; splendid for archways or verandas.

Price of strong 2 year plants, \$1.00 each, 10 for \$9.00.

HALLEANA—(Hall's Japan Honeysuckle.) An almost evergreen honeysuckle of great value, hardy and of strong growth. The flowers are fragrant, of a pure white changing to yellow.

Price of strong 2 year plants 50 cents each, 10 for \$4.50.

HENRYII CLEMATIS—A vigorous grower and a free bloomer, producing its large pure white flowers constantly during the summer and early autumn.

Price of strong 2 year plants, 95 cents each, 10 for \$9.00.

JACKMANNI CLEMATIS—Flowers large, intense, rich, velvety violet-purple, and produced in masses forming a cloud of bloom.

Price of strong 2 year plants, 85 cents each, 10 for \$8.00.

PANICULATA CLEMATIS—Rapid grower, covering trellises and arbors with handsome, clean, glossy foliage. The flowers are of medium size, fragrant, pure white, borne in immense sheets in September, when very few other vines are in bloom.

Price of strong 2 year plants, 50 cents each, 10 for \$4.50.

MAD. ANDRE CLEMATIS—The flowers are a distinct crimson red.

Price, 2 year plants, 85 cents each. 10 for \$8.00.

TRUMPET VINE—A robust, woody vine. Its orange scarlet, trumpet-shaped flowers cluster at the tip of the branches.

Price of strong 2 year plants, 55 cents each. 10 for \$5.00

BITTERSWEET—Handsome glossy foliage and large clusters of beautiful, orange crimson fruits retained all winter. Its graceful sprays of berries make charming winter house decorations.

Price, 2 year, 50c each. \$4.00 per 10.

WISTERIA, CHINESE PURPLE—A most beautiful climber of rapid growth and producing long pendulous clusters of flowers.

Price of strong 2 year plants, 50 cents each. 10 for \$4.50.

WISTERIA, WHITE—Same characteristics as Wisteria Purple.

Price of strong 2 year plants, 50 cents each. 10 for \$4.50.

PARCEL POST. Climbing Vines can be sent by parcel post, postage prepaid, for 5 cents per vine extra.

Nut Trees

UNTIL recently no attention has been given to the planting of English Walnuts, therefore, it may be truly said he who plants now, is bound to reap splendid returns. Most farms contain land that would pay better planted to English Walnuts than anything else, for they will thrive on such land as is suitable for raising potatoes, corn and grain. Every garden or lawn should also contain one or more of the trees for they are well shaped and provide splendid shade.

CHESTNUT, AMERICAN SWEET—Adapted to a great portion of this country. It is valuable as a nut producing tree, timber and ornamental purposes.

Price 4 to 5 feet, \$1.25 each, 10 for \$10.00.

CHESTNUT, SPANISH—A handsome round-headed tree, producing abundantly very large nuts that find a ready market at good prices.

Price 4 to 5 feet, \$1.25 each, 10 for \$10.00.

PECANS—Tree very productive; nuts delicious.

Price, 3 to 4 feet, \$1.25 each.

BUTTERNUT—A fine native tree producing a large, longish nut, which is prized for its sweet, oily, nutritious kernel.

Price 4 to 5 feet, 90 cents each, 10 for \$8.00.

WALNUT, ENGLISH—A fine, lofty growing tree, with handsome, spreading head; produces large crops of thin-shelled, delicious nuts which are always in demand at good prices. Every home garden should have one or more English Walnuts. Tree very hardy.

Price, 3 to 4 feet, \$1.50 each, 10 for \$12.50.

WALNUT, BLACK—The common well-known Black Walnut, the wood of which is most beautiful and valuable. It is very productive in nuts, which are liked by many.

Price 5 to 6 feet, 90 cents each. 10 for \$8.00. 4 to 5 feet 75 cents each. 10 for \$7.00.

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st.
6 per cent discount before April 15th. 3 per cent discount after April 15th.

Shrubs

Price of All 2 yr. Hardy Shrubs 2½ to 3½ ft., (except Red Leaved Japanese Barberry,) 50c each, 10 for \$4.50

PARCEL POST. Shrubs can be sent by parcel post, postage prepaid, for 3 cents per bush extra.

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st.
6 per cent discount before April 15th. 3 per cent discount after April 15th.

Shrubs are useful in bringing out the full beauty of a house. Splendid effects can be had by planting an assortment of flowering shrubs on the lawn, not at all difficult to arrange them, for a group planted promiscuously here and there has a splendid effect.

Shrubs For Shady Places—Barberry, Dogwood, Hydrangea Arborescens, Forsythia, Honeysuckle, Snowberries, Snowball, Deutzia, Pride of Rochester, Spiraea Van Houttei, Spiraea Billardi.

Shrubs for Foundation Plantings, and How to Plant Them as to Size:

Dwarf Growing—Barberry, Deutzia Gracilis, Deutzia Lemoinei, Spiraea Anthony Waterer, Spiraea Thunbergii.

Medium to Tall Growing Varieties—Almond, Althea, Butterfly Bush, Calycanthus, Coralberry; Deutzias: Crenata, Pride of Rochester; Golden Elder, Hydrangea A. G., Mock Orange, Japan Quince; Spiraeas: Prunifolia, Billardi, Callosa Rosea, Douglassi, Van Houttei; Syringas: Common, Golden; Weigelas: Candida, Eva Rathke, Floribunda, Rosea.

Tall Growing Varieties for Corners and Borders—Dogwood, Honeysuckle, Snowball, Lilacs.

ALMOND—Flowering. A very beautiful shrub covered in May with rose colored blossoms resembling small roses. Grows 4-5 feet.

ALTHEA—A large shrub, sometimes trimmed into tree form, that blooms freely in August or September, when almost every tree is out of bloom. Vigorous grower and succeeds everywhere. Also called Rose of Sharon. We can furnish double varieties in these colors: Double Purple, Red, Pink and White. Grows 6-8 feet.

BUTTERFLY BUSH—Seems to attract butterflies in large numbers. It produces long, graceful stems which terminate in tapering panicles of beautiful lilac-colored flowers that are of miniature size and borne by the hundreds on a flower head which is often ten inches long. It blossoms from early summer till frost. Grows 3-4 feet.

BARBERRY THUNBERGII—A pretty plant of dwarf habit from Japan. Very graceful and its foliage turns to a beautiful red in the Fall. All barberries make very fine hedges. Grows 3 feet.

BARBERRY (New Red Leaved Japanese)—Similar in all respects to the green-leaved Japanese Barberry which is so popular for mixing in the shrubby border, as single specimens, or for planting in clumps on the lawn, as well as for foundation plantings and for hedges, but the foliage of this new variety is of a rich, lustrous, bronzy red, similar to the richest red-leaved Japanese Maples. As the season advances, this new Barberry becomes more brilliant and gorgeous throughout the summer, and in the fall its foliage changes to vivid orange, scarlet, and red shades, more brilliant and more effective than in the ordinary Japanese Barberry. In this coloring it is unequalled by any other shrub and is followed by the same brilliant scarlet berries common to the type, which remain on the plant the entire winter.

To develop its brilliant coloring at all seasons plant in full exposure to the sun. Colored illustration on page 35. Grows 3 feet.

Price 18-24 inches, \$1.00 each, \$8.50 per 10.

CALYCANTHUS—The wood is fragrant; foliage rich; flowers are of chocolate color, having a peculiarly agreeable odor. August. Grows 5 feet.

CORALBERRY (Indian Currant)—Vigorous, quick growing shrub similar to snowberry, except fruit is red. Rose colored flowers in June and July. Grows 4-5 feet.

DEUTZIA, GRACILIS—Pure white flowers in June. Two feet high when fully grown.

DEUTZIA, CRENATA, DOUBLE-FLOWERING—A hardy vigorous shrub that in May is fairly covered with very showy double white flowers that on the edge are slightly tinged with rose. Handsome, desirable shrub. 5-6 feet at maturity.

DEUTZIA, LEMOINEI—Dwarf, the flowers are large, pure white and produce freely. May. Grows 3 feet.

DEUTZIA, PRIDE OF ROCHESTER—Blooms in May. Double, white. Grows 5-6 feet.

DOGWOOD—Red: Very conspicuous in winter when branches turn to blood red. Grows 6-8 feet.

DOGWOOD—White: Large white flowers in Spring before the leaves appear. Stem and branches turn to blood red in winter. Grows 6-8 feet.

DOGWOOD—Yellow: A striking yellow branched form. Very satisfactory for contrast. Grows 6-8 feet.

FORSYTHIA FORTUNEI—(Golden Bells.) Deep yellow flowers in great profusion in April. Grows 6-8 feet.

GOLDEN-LEAVED ELDER—The best of all the colored shrubs, the foliage being as yellow as gold. Grows 5-6 feet.

DEUTZIA—PRIDE OF ROCHESTER

GOLDEN-LEAVED ELDER

A FOUNDATION PLANTING OF SPIRAEA VAN HOUTTEI AND DEUTZIA GRACILIS

HYDRANGEA PANICULATA GRANDIFLORA—

Absolutely hardy; thrives in all soils; grows rapidly and blossoms profusely. The flowers are pure white, afterward changing to pink, and are borne in large pyramidal trusses often more than a foot long and six to eight inches in diameter. Begins to bloom early in August, and continues to bloom for several weeks. 6-7 feet at maturity.

HYDRANGEA, ARBORESCENS GRANDIFLORA

ALBA—(Hills of Snow.) This hardy American shrub is the very finest addition to this class of plants. The blooms are of the very largest size, of pure snow-white color in July and August. 4-5 feet at maturity.

HONEYSUCKLE, WHITE—Tall growing; white flowers and plentiful red berries. May. Grows 8-10 feet.

HONEYSUCKLE, PINK—Bright pink flowers in abundance, and very fresh, rounded foliage; one of the most noticeable. May. Grows 8-10 feet.

LILAC, PURPLE—An old favorite; purple flowers. May. 6-8 feet.

LILAC, WHITE—A well known favorite. May. 6-8 feet.

MOCK ORANGE—Flowers white. Derives its name owing to flowers resembling orange blossoms. Grows 6-8 feet.

QUINCE, JAPAN—Dark green foliage, and showy deep, scarlet flowers. May. Grows 5-6 feet.

SNOWBALL, COMMON—Makes a large bush. Bears balls of pure white flowers in June. Grows 8-10 feet.

SNOWBALL, JAPAN—A solid mass of white in June. Grows 6-7 feet.

SNOWBERRY—Very ornamental, hardy shrub. Small, pink flowers followed by large, waxy white berries, which remain during winter. June and July. Grows 4-5 feet.

SPIRAEA PRUNIFOLIA—Blooms early, and is very effective. Small, double white flowers. May. Grows 4-6 feet.

SPIRAEA ANTHONY WATERER—A dwarf variety of great beauty. Its broad flat heads of red flowers continue in perfection all summer. Grows 3 feet.

SPIRAEA BILLARDI—A hardy, free growing shrub. During July every branch and twig is tipped with a spike of beautiful blood-red flowers 4 to 6 inches in length. 4-5 feet at maturity.

SPIRAEA CALLOSA ROSEA—Has large panicles of deep rose-colored flowers in July and August, blooms nearly all summer. Grows 4-6 feet.

SPIRAEA, DOUGLASI—Has spikes of beautiful deep rose-colored flowers in July and August. Grows 4-6 feet.

SPIRAEA THUNBERGII—Forms a dense, fluffy bush 3 to 5 feet high; the feathery foliage, which is a peculiar but pleasing shade of yellowish green, changing in autumn to bright red and orange.

SPIRAEA VAN HOUTTEI—Undoubtedly the best of the spiraeas. White blossoms in May and June. Grows 5-7 feet.

SYRINGA, COMMON—Large, white flowers. May and June. Grows 3-5 feet.

SYRINGA, GOLDEN—Large, deep yellow flowers; bush hardy. May and June. Grows 3-5 feet.

WEIGELA, CANDIDA—The flowers are of the purest white, blooming in June, and all summer. Grows 5-7 feet.

WEIGELA, EVA RATHKE—Showy, bright red flowers borne freely during the summer. Grows 5-7 feet.

WEIGELA, FLORIBUNDA —Flowers dark crimson, with white stamens somewhat like Fuchsia flowers. Blooms in the Spring and in the Fall. Grows 5-7 feet.

WEIGELA ROSEA—One of the most charming shrubs in cultivation; the flowers are large and of deep rosy color, and are borne in great profusion. July. Grows 5-7 feet.

WITCH HAZEL (Yellow.) —Oct. Grows well in shade. Unusual because of period of blooming. Grows 4-5 feet.

HYDRANGEA TREE

Hydrangea--Tree Form

Same as Hydrangea P. G. except in tree form, being grafted on a Hydrangea stalk. When in full bloom are very attractive. 3 to 4 feet, \$1.50 each.

ROSE COLLECTION NO. 95

5 strong bushes 2 year No. 1 for only \$3.25

One of each of above varieties.

Price of All Varieties of Rose Bushes

Strong Bushes, 2 year, No. 1, 75 cents each, 10 for \$7.00.

PARCEL POST. Roses can be sent by parcel post, postage prepaid, for 3 cents per bush extra.

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st.
6 per cent discount before April 15th. 3 per cent discount after April 15th.

ROSES are growing in favor each day. No other class of ornamentals gives as much value received as roses. Very often the bloom of the first season repays the planter many times over for the time and money spent. Some people think it difficult to grow roses. However, such is not the case. Good soil and a little care will produce the results desired. Our list includes the best hardy varieties carefully selected which will prove most satisfactory. All our roses are two-year, No. 1, hardy field grown budded stock, that will bloom this season.

PLANTING AND CARE OF ROSES

Plant roses in good rich soil. Dig the holes deep enough so they can be set in the ground two inches below where they were budded. Do not trim the roots off too severely, but cut the tops off about six to eight inches above the top of the ground. Pack good rich soil thoroughly around the roots, being careful not to let any composite come in contact with the roots. Work frequently around the bushes during the growing season so as to keep the soil loose. Each following spring cut the tops back to within ten or twelve inches of the ground and every fall hill the earth eight to ten inches high around the bushes.

Hybrid Tea Roses

The Everblooming or Hybrid Tea Roses, commonly called Monthly Roses begin blooming in June and continue until frost.

BUTTERFLY ROSE—Bright pink shading to Apricot and gold. Blossoms are large. Very prolific bearer.

COLUMBIA—A beautiful true pink; deepening as it matures to a warm, glowing tone, which is enduring. Its unusual double petalage and substance make it a good summer rose, while the great size, color and long (almost thornless) stems mark it as a superior cutting variety.

CRUSADER—Upright, vigorous plant, producing freely large crimson flowers, shading from a lighter center to deep outer petals.

ECARLATE—Makes a brilliant color show throughout the entire season, as a bedder, with its masses of semi-double flowers in dazzling scarlet touched here and there with carmine.

FRANCIS SCOTT KEY—Red, shading to cerise. Great profusion of petals, regularly arranged. Sturdy and a good bloomer.

GENERAL MACARTHUR—Dazzling crimson scarlet, exquisitely perfumed. One of the grandest red roses ever offered, either for cutting or bedding.

GRUSS AN TEPLITZ—The color is brightest scarlet, shading to deep, rich, velvety crimson. It is very fragrant, the freest grower and most profuse bloomer.

J. L. MOCK—A hardy rose, very large, full and fragrant. Petals silvery pink, shading to carmine pink. Vigorous in growth and a continuous bloomer.

KAISERIN AUGUSTA VICTORIA—A beautiful rose, with elegant, large pointed buds and very large, full double flowers; color, delicate creamy white; deliciously fragrant.

KILLARNEY PINK—One of the most popular of our garden roses. It is perfectly hardy, a robust grower; color of sparkling, brilliant, imperial pink.

KILLARNEY WHITE—Similar to Killarney Pink in size, shape and fragrance but pure white.

LA FRANCE—Rich satiny peach, changing to deep rose; large and full. A constant bloomer. The sweetest of all.

LOS ANGELES—Flame pink toned with coral and shaded gold at base of petals. Stems long and flowers large.

MAD. CAROLINE TESTOUT—One of the most popular of the Hybrid Teas for the garden. The flowers are extra large, and a brilliant, shining pink.

MAMAN COCHET—This superb rose is well known as a queen among roses. One of the best and most beautiful pink varieties grown, and quite hardy. The flowers are of enormous size, borne on long, strong stems, just right for making bouquets.

MRS. AARON WARD—Buds are deeply cupped, the open flowers delightfully attractive. Color, deep golden orange, shading outward to creamy yellow.

OPHELIA—Blossoms are large, full and perfect in form and appearance. Attractive light salmon, flesh coloring shading to yellow.

PREMIER—Rich, dark pink flowers of good size, fine form, pleasing fragrance.

HYBRID TEA ROSES (*Continued*)

RED RADIANCE—The wonderful, globular, heavy-stemmed "Radiance" duplicated in all respects except color; this sport form being a brilliant crimson.

SUNBURST—Flowers superb cadmium yellow, with orange yellow center, large, fairly full, of cupped form. The buds generally borne singly on long, stout stems are long and pointed; opening well.

Hybrid Perpetual Roses

Hybrid Perpetual Roses are not as free bloomers as the Hybrid Teas but are completely hardy and of vigorous growth. They bloom tremendously in June and usually sparingly until autumn.

FRAU KARL DRUSCHKI—Snow Queen. The finest white Hybrid Perpetual. It is marvelous in its beauty in half opened bud and in the pure white of the full opened bloom. It holds its foliage well and is healthy and vigorous and in hardiness it equals any of the Hybrid Perpetuals.

GENERAL JACQUEMINOT—Brilliant crimson; large and fine. Beautiful in bud and a universal favorite.

MOSS ROSE—GRACILIS—Deep pink, well mossed. Very beautiful. Keeps quite long after cutting. Bush extremely hardy. Will thrive where many roses fail.

HUGH DICKSON—Intense crimson, shaded scarlet; very large, full and magnificent form, with high pointed center; growth upright and vigorous, free and continuous blooming; is the finest of all autumn roses, highly perfumed.

PAUL NEYRON—The largest of all. Deep rose color. A free bloomer and vigorous grower.

MARGARET DICKSON—A free summer and autumn bloomer. Flowers white with pale flesh center, of a waxy texture and delightful fragrance.

MARSHALL P. WILDER—Bright cherry carmine; very fragrant and one of the freest bloomers; vigorous.

MAGNA CHARTA—Pink and carmine; very large and full; a profuse bloomer. Fragrant. Free grower.

PRINCE CAMILE DE ROHAN—Very dark velvety crimson, changing to intense maroon.

ULRICH BRUNNER—Large flowers of light red. Shade peculiar to the Ulrich Brunner. The abundant flowers grow on long stems borne by a plant of very vigorous growth.

Dwarf Polyantha (Baby Roses)

(*Everblooming*)

Called the "Baby" Ramblers on account of their very short, close growth.

Price: 75 cents each, \$7.00 per ten.

CRIMSON BABY RAMBLER—The flowers are borne in clusters of twenty or more. Blooms from May to November.

PINK BABY RAMBLER—The showiest and prettiest of the pink "Baby" roses. It blooms from May to November.

WHITE BABY RAMBLER—As delicately tinted and as full of clusters as any Polyantha rose. Blooms from May to November.

CRIMSON RAMBLER

THE MOST POPULAR CLIMBING ROSE IN
THE U. S. EXTREMELY HARDY

Climbing Roses

(*Everblooming*)

Price, 2 Year No. 1 Bushes, 65 cents each, 10 for \$6.00.

CRIMSON RAMBLER—Very vigorous, entirely hardy and extremely prolific. It blooms in clusters. Of a beautiful crimson color and lasts a long time.

EXCELSA—General form and type of Crimson Rambler but of far better color, hardiness and habit. Brilliant scarlet-crimson flowers on plants of great vigor and beauty.

DOROTHY PERKINS—A beautiful shell-pink Rambler. Hardy. Flowers are double, of large size, usually two inches across and borne in loose clusters.

SILVER MOON—A beautiful, semi-double, pure white rose four inches in diameter, with a cluster of prominent yellow stamens in the center which greatly add to its attractiveness.

TAUSENDSCHON (Thousand Beauties)—Varies in color. A beautiful combination of colors, including several shades of pink. Semi-double.

VEITCHENBLAU (Blue Rambler)—Double flowers of light lilac, fading to light purple and blue.

WHITE DOROTHY—A rose that has gained great popularity. A duplicate of Dorothy Perkins except in color.

YELLOW RAMBLER—Lovely yellow buds, which fade to creamy white as the flower opens. Strong and hardy.

Old Fashioned Garden Perennials

IT is no wonder that these grand old fashioned hardy garden flowers continue to increase in popularity because there is not a time during the whole flowering season in which some are not in blossom, and when the wooded shrubs are almost bare of flowers in July, August, September and as late as the month of October, these perennials and bulbs may be depended upon to make a grand display.

The setting of perennials, bulbs and plants has received a wonderful impetus during the past few years—it does seem good as you drive through cities, towns and rural districts to note the revival of these delightful color effects so common to the gardens of long ago.

These old fashioned flowers are frequently planted with shrubs by using them in the foreground, which produces a most pleasing effect. We presume the list of perennials, plants and bulbs we offer is the most compact assortment of the choicest varieties, carefully selected to succeed over a wider range of territory than ever offered by any Nurserymen. Maloney's new low prices make it possible for every lover of perennials to plant this Spring. Each and every kind will flower this summer and requires little care other than reasonably good soil and occasional hoeing.

GLADIOLI

PARCEL POST: Gladioli and Begonias can be sent by parcel post for 2c per plant extra.

Gladioli

Price, 10 cents each, 75 cents per ten

LILY LEHMAN—An early, almost white variety of large size and beautiful form.

WAR—A new blood red variety. Extra fine.

PANAMA—An improved "America" with flowers of a deeper shade of pink and much larger.

SCHWABEN—Yellow with crimson center. Magnificent. Large flower.

BARON HULOT—Rich dark blue. Extra fine.

Begonia—Flowering

Price, 25 cents each, \$2.25 per ten

OTTO HACKER—Color bright red. Immense clusters. Shining deep green leaves 8 to 10 inches long.

PRIMA DONNA—A good bedding begonia. Large flowers of bright pink.

WHITE PEARL—Large, waxy white flowers. Rapid grower.

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st.
6 per cent discount before April 15th. 3 per cent discount after April 15.

PEONIES (*Continued*)

MAD. LEBON—Valuable late red. Flowers ball-shape, very rich, cherry rose.

MAD. DE VERNEVILLE—Medium sized, globular flower, petals crinkly and semi-transparent. Creamy white throughout, flaked purple at center.

GRANDIFLORA—Bright sea-shell pink; overlaid with delicate lilac and salmon pink—an enchanting color.

FRANCIS ORTEGAT—Red.

MADAM LEBON

Peonies

Price, 55 cents each, \$5.00 per ten

FESTIVA MAXIMA—For over fifty years this has been the standard for perfection in peonies. The immense, perfectly double flowers are pure snow-white, with a beautiful flake of carmine in the center.

FRAGRANS—Rose color.

PARCEL POST: Peonies can be sent by parcel post for 3c per bulb extra.

Cannas

Price, 20 cents each, \$1.75 per ten

CANARY BIRD—Green foliage. Canary yellow.

FLAG OF TRUCE—Green foliage. Creamy white.

FLORIDA—Bronze foliage. Beautiful orange red.

KING HUMBERT—The finest canna grown. Very broad-leaved foliage, of a rich reddish bronze color. Flowers orange scarlet, very large. Very free bloomer.

MRS. WOODROW WILSON—Green foliage. Large rose-pink blossoms.

Coreopsis

Price, 25 cents each, \$2.00 per ten

LANCECOLATA GRANDIFLORA—Rich golden yellow flowers nearly all summer.

PARCEL POST: The above items can be sent by parcel post for 2c per plant extra.

CANNA BEDS ARE EXTREMELY POPULAR

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st. 6 per cent discount before April 15th. 3 per cent discount after April 15.

Larkspur—Delphinium

Price, 25c each, \$2.25 per ten.

BELLADONNA—Vigorous new sort. Large spikes of delicate turquoise blue.

FORMOSUM—The old fashioned favorite. Dark blue flowers.

Foxglove—Digitalis

Price, 25c each, \$2.25 per ten.

A great favorite. Tall spires 4 to 6 feet high. Thimble shaped flowers in shades of white, rose and purple mixed together.

Lilies

Price, 30c each, \$2.50 per ten.

AURATUM—The flower heads are large with broad petals gracefully recurved. White with crimson shadings, and wide gold band down center of each petal. Prolific bloomer.

SPECIOSUM RUBRUM—Blooms profusely during August. Petals white, heavily spotted with rich crimson.

SPECIOSUM ALBUM—Pure white with a green bank traversing the center of each petal.

SPECIOSUM MAGNIFICUM—Large flowers of rich, deep red.

Iris

Price, 25c each, \$2.25 per ten.

ATROPURPUREA—Purple.

BLUE KING—Clear, bright blue.

QUEEN OF MAY—Rosy Lavender.

SHERWIN WRIGHT—One of the finest of the newer yellow varieties; deep, golden yellow.

Shasta Daisy

Price, 25c each, \$2.25 per ten.

Large, snow-white flowers throughout the fall. Splendid for cutting.

Heliopsis (Zinnia)

Price, 30c each, \$2.50 per ten.

Similar in general habit to Helianthus, but commencing to flower earlier in season. July and August.

Helenium

Price, 30c each, \$2.50 per ten.

RIVERTON GEM—Old gold changing to red. A very beautiful plant.

LARKSPUR (Delphinium)

PARCEL POST—All items on this page can be sent by parcel post for two cents per plant extra.

IRIS

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st.
6 per cent discount before April 15th. 3 per cent discount after April 15.

MIXED PHLOX

PARCEL POST—All items on this page can be sent by parcel post for two cents per plant extra.

PAPAVER ORIENTALE

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st.
6 per cent discount before April 15th. 3 per cent discount after April 15.

Phlox

Price, 25c each, \$2.25 per ten

BEACON—Brilliant cherry-red.

MRS. JENKINS—Pure white. Very early.

RHINELANDER—Handsome salmon-pink. Red eye.

RIJNSTROM—Beautiful clear pink. Large flower.

THOR—Deep salmon-pink overlaid with scarlet. Deep crimson eye.

Anemone

Price: 25c each, \$2.25 per ten.

QUEEN CHARLOTTE—Large, semi-double, silvery pink.

WHIRLWIND—Very large, double white.

Papaver Orientale

(Oriental Poppy)

Price: 25c each, \$2.00 per ten.

Mixed hybrids. Scarlet shade. Large and showy.

Dianthus Plumarius

(Hardy garden pinks)

Price: 30c each, \$2.50 per ten.

The old-fashioned fragrant variety.

Dianthus Barbatus

(Sweet William)

Price: 25c each, \$2.25 per ten.

Single. All colors mixed.

PLANT NOW AND ENJOY THE EFFECTS
NEXT SUMMER

So often when passing places set with shrubs and ornamentals we comment on the attractiveness of it. Not necessarily a mansion nor an expensive dwelling but a cottage or a bungalow you find that a few shrubs, evergreens or ornamentals are responsible for the charming effect.

THE SAME MAGIC WILL WORK ON THE HOME BUILT LONG AGO, FOR WHEN PLANTED IT WILL PRODUCE WARMTH, COMFORT, AND A WHOLE LOT OF REAL SATISFACTION.

The shade of the maples, the attractiveness of the shrubs, the fragrance of the roses, and the dark covers under the evergreens are never forgotten by those who lived and played around them in childhood days. These together with fruit from the garden bring happiness, healthfulness and complete the real genuine home satisfaction.

This is all yours for an investment of a few dollars. Plant this Spring at Maloney's new low prices and have this enjoyment next summer. Happy Surroundings Tend to Convert Idle Moments into Years of Pleasant Memories.

SELECT WHAT YOU NEED TO IMPROVE YOUR HOME AND SURROUNDINGS AND ORDER TO-DAY.

W. J. MALONEY'S NEW HOME
Note—effective evergreen and shrub planting made spring 1924

Remember— The Discount Period Ends April 1st

Why not save 10% on every dollar you spend with us this year?

To encourage April planting, we allow 10% discount for all cash orders mailed on or before April 1st. This is a nice saving to you and it insures you of receiving your stock in April which is unquestionably the best month for planting.

Maloney's big reduction in prices for Spring 1927, made possible by using the latest and most up-to-date devices for propagation. This, together with growing large quantities of all kinds of fruit and ornamental trees, shrubs, roses, vines, perennials, etc., on our new farms which are particularly adapted to producing more and better trees to the acre, enables us to keep the cost of production down and this saving we are passing along to our patrons in our new low prices for Spring.

Why People Like to Deal With Us

OUR 43RD YEAR SELLING DIRECT TO THE PLANTER. Whether you buy 1,000 trees or a single shrub you cannot go wrong in buying from us by mail.

We pledge ourselves to give service to the planter which means complete satisfaction, for no transaction with us is complete until your satisfaction is complete.

Furthermore, we guarantee our stock to be absolutely true to name, to be positively free from disease and to arrive at destination in a satisfactory condition. Should any arrive otherwise, if the consignee will notify us within five days we will immediately replace the unsatisfactory items or refund your money.

10% discount will more than pay transportation charges.

Our entire capital of \$150,000 is back of this guarantee.

Don't Wait. Mail Your Order To-day.

A FOUNDATION PLANTING OF SPIRAEA VAN HOUTTEI AND DEUTZIA GRACILIS

Dahlias

Price 30 cents each, \$2.50 per ten.

Dahlias can be sent by parcel post for 3 cents per bulb extra.

ETENDARD DE LYON—Beautiful flowers about 6 inches across, the broad fluted petals recurving to a 4 inch depth. The color is distinctly rich and lustrous, varying according to shadows, from carmine-rose to royal purple.

MONT BLANC—Valuable cut-flower type of large size, perfect form, and with long rigid stems. Although essentially white, there is just enough of tender rose flushing the margins of the petals to give the flower a charming air of delicacy and distinction.

MARIE DOUCETT—A popular variety which is generally grown. It is a bright pink, of perfect form and largely grown for cut flowers.

YELLOW KING—Firm, substantial, perfect form, medium size, free-blooming, early and outlasting; a practical and popular cutflower variety. Yellow.

MRS. HENRY WIRTH—Of moderate growth. Medium sized flowers. Bright red blossom.

MRS. HENRY WIRTH

Golden Glow

Price 25 cents each, \$2.00 per ten.

RUDEBEKIA (Golden Glow)—Golden Yellow, produced in profusion.

Golden glow are exceedingly valuable for planting with shrubs since they are tall growing and blossom from mid to late season when the blossoming season of a great many shrubs has passed. These are also desirable for planting in beds and when mixed with Hollyhocks.

Chrysanthemum Hardy

Price 25 cents each, \$2.00 per ten.

Indispensable for late fall bloom. Should be given rich culture and a sheltered position fully exposed to the sun for the best results. Assorted colors.

Bleeding Heart

Price 50 cents each, \$4.50 per ten

One of the most delightful of early Spring flowering plants. Bears numerous rosy red, heart-shaped flowers in drooping clusters.

All items (except Dahlias) can be sent by parcel post for 2 cents each extra.

GOLDEN GLOW

DISCOUNT—10 per cent discount on all cash orders mailed before April 1st.
6 per cent discount before April 15th. 3 per cent discount after April 15th.
